Great Walls & Linear Barriers Peter Spring, 2015-02-28 Everyone has heard of the Great Wall of China and knows of Hadrian's Wall and the other barriers lining stretches of Rome's imperial frontiers But Peter Spring's original new study demonstrates that far from being exceptional the building of walls and other linear defences was commonplace among the peoples and states of pre modern era He finds examples virtually all across the globe and analyses their forms and strategic functions He finds patterns for their distribution an important recurrent theme being the divide between settled agriculture and nomads The author argues that it is mistaken to view such undertakings as necessarily purely defensive measures that might be evidence of insecurity or a maginot line mentality as they were in fact often about aggressive assertion of control over a region or strategic routes This original and thought provoking study brings new light and insight to a fascinating and neglected aspect of human political and military history It The clear text is supported by numerous specially drawn maps and photographs

The Tao of Deception Ralph D. Sawyer, 2007-02-13 The history of China is a history of warfare Wars have caused dynasties to collapse fractured the thin facade of national unity and brought decades of alien occupation But throughout Chinese history its warfare has been guided by principles different from those that governed Europe Chinese strategists followed the concept first articulated by Sun tzu in *The Art of War* of qi ch i or unorthodox warfare The concept of qi involves creating tactical imbalances in order to achieve victory against even vastly superior forces Ralph D Sawyer translator of *The Art of War* and one of America's preeminent experts on Chinese military

tactics here offers a comprehensive guide to the ancient practice of unorthodox warfare He describes among many other tactics how Chinese generals have used false rumors to exploit opposing generals distrust of their subordinates dressed thousands of women as soldiers to create the illusion of an elite attack force and sent word of a false surrender to lure enemy troops away from a vital escape route The Tao of Deception is the book that military tacticians and military historians will turn to as the definitive guide to a new yet ancient way of thinking about strategy
