Se Buscan Buenos Empleos:

Se buscan buenos empleos, 2004 **Se buscan buenos empleos** Carmen Pagés, 2005 Los rostros del mercado laboral latinoamericano Juan y María Pensando bien mitos de los mercados laborales en América Latina Terapias para los quebrantos laborales *Counter-Cola* Amanda Ciafone, 2019-05-28 Counter Cola charts the history of one of the world's most influential and widely known corporations The Coca Cola Company Over the past 130 years the corporation has sought to make its products brands and business central to daily life in over 200 countries Amanda Ciafone uses this example of global capitalism to reveal the pursuit of corporate power within the key economic transformations liberal developmentalist neoliberal of the twentieth and twenty first centuries Coca Cola's success has not gone uncontested People throughout the world have redeployed the corporation its commodities and brand images to challenge the injustices of daily life under capitalism As Ciafone shows assertions of national economic interests critiques of cultural homogenization fights for workers rights movements for environmental justice and debates over public health have obliged the corporation to justify itself in terms of the common good demonstrating capitalism's imperative to either assimilate critiques or reveal its limits **The Modernization of Labour Law and Industrial Relations in a Comparative Perspective** Silvia Spattini, 2009-01-01 Not all labour law and industrial relations scholars agree on the efficacy of the comparative approach that the analysis of measures adopted in other countries can play a constructive role in national and local policy making However the case deserves to be heard and no better such presentation has appeared than this remarkable book the carefully considered work of over 40 well known authorities in the field from a wide variety of countries including Australia France India Israel Peru Poland and South Africa The volume contains papers delivered at a conference sponsored by the Marco Biagi Foundation at the University of Modena and Reggio Emilia in March 2008 **China's and India's Challenge to Latin America** Daniel Lederman, Marcelo Olarreaga, Guillermo E. Perry, 2008-10-31 The economic successes of China and India are viewed with admiration but also with concern because of the effects that the growth of these Asian economies may have on the Latin American and Caribbean LAC region The evidence in China's and India's Challenge to Latin America indicates that certain manufacturing and service industries in some countries have been negatively affected by Chinese and Indian competition in third markets and that LAC imports from China and India have been associated with modest unemployment and adjustment costs in manufacturing industries The book also provides substantial evidence of positive aggregate effects for LAC economies associated with China's and India's greater presence in world exports financial flows and innovation Chinese and Indian growth is creating new production possibilities for LAC economies particularly in sectors that rely on natural resources and scientific knowledge *Global Industrial Relations* Michael J. Morley, Patrick Gunnigle, David Collings, 2006-11-22 Breaking new ground and drawing on contributions from the leading academics in the field this notable volume focuses specifically on industrial relations Informative and revealing the text provides an overview of the industrial

relations systems of nine regions North America South America Western Europe Eastern Europe the Middle East Australia and New Zealand Asia Africa and India and is divided into two distinct sections covering regional variations in global industrial relations systems contemporary themes in global industrial relations Combining both systems and thematic issues this important new text is invaluable reading for postgraduates and professionals in the fields of human resources management industrial relations and business and management as well as anyone studying or interested in the issues surrounding global industrial relations

The Impact of Trade with China and India on Argentina's Manufacturing Employment Luis Castro, Marcelo Olarreaga, Daniel Saslavsky, 2007 For many in Latin America the increasing participation of China and India in international markets is seen as a looming shadow of two mighty giants on the region's manufacturing sector Are they really mighty giants when it comes to their impact on manufacturing employment The authors attempt to answer this question by estimating the effects of trade with China and India on Argentina's industrial employment They use a dynamic econometric model and industry level data to estimate the effects of trade with China and India on the level of employment in Argentina's manufacturing sector Results suggest that trade with China and India only had a small negative effect on industrial employment even during the swift trade liberalization of the 1990s

In Defence of Labour Market Institutions J. Berg, D. Kucera, 2008-02-22 Though labour market regulations have been blamed for the poor economic performance of many developing countries the evidence on which this argument rests is weak Through a survey of different labour market institutions in developing countries this book reaffirms the importance of labour market institutions in this era of globalization

Empleos para crecer Verónica Alaimo, Mariano Bosch, David S. Kaplan, Carmen Pagés, Laura Ripani, 2015-09-21 El trabajo es un aspecto esencial para el crecimiento de las personas y los países Alcanzar una plena realización personal es más difícil sin un empleo del mismo modo que una economía no puede desarrollarse en su conjunto sin el impulso del mercado laboral Ambas perspectivas van indiscutiblemente de la mano desde un punto de vista individual conseguir un buen empleo es la esperanza legítima de todo aquel que desea un sustento económico para sí mismo y para su familia desde una óptica colectiva crear más y mejores trabajos constituye una condición indispensable para alcanzar un crecimiento duradero y equitativo Empleos para crecer se nutre de esta visión dual En los capítulos que lo componen se realiza un análisis del desempeño del mercado laboral de la región y a partir de este se propone un paquete integrado de medidas que persiguen tanto el crecimiento de las personas a través de trayectorias laborales de éxito como el de las economías de los países mediante el logro de más empleos de calidad y mayor productividad El ciclo económico positivo ha traído innegables ganancias para los mercados de trabajo de América Latina y el Caribe en las dos últimas décadas como la reducción del desempleo la creación de empleos y el aumento significativo de los salarios Sin embargo el nuevo horizonte que se plantea ante el agotamiento del crecimiento que ven a experimentando la región y las debilidades que presenta el panorama macroeconómico mundial aumenta la urgencia de encontrar soluciones a los

principales problemas laborales ya existentes Este volumen muestra que tras las todavía bajas tasas de desempleo la región puede encontrarse atrapada en un círculo vicioso de empleos de baja calidad que se manifiesta especialmente en el elevado porcentaje de trabajos informales definidos en esta publicación como aquellos sin acceso a beneficios de seguridad social y en la alta proporción de empleos de muy corta duración Para salir de lo como se expone en Empleos para crecer es necesario promover políticas integrales que impulsen la productividad **Hacia el Futuro** Maria Eugenia Ibarrarán,Roy

Boyd,2006-09-09 The past 25 years have witnessed an increasing worldwide concern over the issue of climate change and the specter of immense environmental and economic damage which would accompany unmitigated global warming trends National governments in the industrialized world along with numerous multinational organizations have made a strong case for curbing the use of fossil fuels as an energy source and agreements such as the Kyoto Protocol have come about largely due to their efforts Many groups of researchers in both the natural and social sciences have made great strides in understanding this complicated issue To date however the vast majority of climate change literature has addressed the topic from a European North American or global perspective and the implications for developing countries have largely received only cursory treatment This book represents a major step forward in addressing the issue of climate from the perspective of a country in the developing world It highlights the climate change concerns for a particular developing country Mexico and analyses the economic impacts of different policies designed to mitigate the use of fossil fuels in the context of economic development and growth The effects of energy pricing policies technological change carbon sequestration and tradable permits are all economically modeled and discussed at length by the authors Of particular interest are the issues that these authors raise for policy makers such as the tradeoffs between environmental concerns economic growth and income distribution **Mejores pensiones mejores trabajos** Mariano Bosch,Ángel Melguizo,Carmen Pagés,2013-10-16

América Latina y el Caribe ALC ha reducido su desigualdad y su pobreza y enfrenta las próximas décadas con mayor optimismo que en el pasado Conforme la región crece aparecen nuevos problemas a los que se tienen que enfrentar los responsables de conducir la política económica Como proporcionar pensiones adecuadas para los adultos mayores es uno de esos problemas Este libro ofrece un análisis de los sistemas previsionales desde la perspectiva del funcionamiento de los mercados laborales de la región Esclarece por qué después de más de medio siglo de haber sido creados solo una minoría de los trabajadores de la región ahorra para su pensión en los sistemas contributivos a través de impuestos a la nómina Además analiza los cambios en los estatus laborales de los trabajadores y sus implicaciones para la frecuencia con la que estos cotizan para su pensión y para los montos de las pensiones Se afirma que el problema no solo reside en la falta de cobertura si no en la baja cuantía de las pensiones a nivel de aquellos que cotizan Argumenta que para poder diseñar políticas públicas en materia de pensiones es indispensable comprender la compleja red de interacciones entre empresas y trabajadores que se observa en el mercado laboral **Mujeres y trabajo en América Latina** Claudia Piras,2006 Basado en encuestas familiares analiza las tendencias de

las tasas de participación femenina el impacto de la liberalización del comercio en el trabajo de las mujeres las tendencias de las disparidades salariales por motivos de género y la segregación ocupacional y las repercusiones de la reforma del sistema de pensiones en la situación de la mujer *El desarrollo local: modelo social de trabajo territorial* Emilia Domínguez Rodríguez, Carlos Bonantini, Víctor F. Quiroga, 2025-07-28 Este libro tiene una historia que es parte de la labor de investigación en temas de trabajo salud y ocupación La tarea realizada se plasma en algunos trabajos como El mito de saturno Desocupación y vida cotidiana y Trabajo y no trabajo la otra mirada El 2001 constituye un punto de ruptura de la sociedad con respecto al trabajo y la vida cotidiana de los trabajadores y nuestro equipo transita nuevos caminos creativos para aportar al mejoramiento de las condiciones de vida laboral En el contexto de post crisis con el aporte de la comunidad de Extremadura y el liderazgo de la Dra Emilia Domínguez Rodríguez diseñamos una experiencia piloto aplicada en el barrio Casino Casas de la ciudad de Rosario Pcia de Santa Fe que constituye el cuerpo principal del libro Para presentar nuestros desarrollos actuales incluimos un escrito sobre los desafíos del mercado laboral en la era exponencial y un rediseño del Centro de Desarrollo Local pensado para las nuevas condiciones de la sociedad tecnológica en la cuarta revolución industrial Esperamos que este sea un aporte a todos los que piensan y trabajan para mejorar las condiciones laborales en el capitalismo tardío
