*Seafarer & Community* Peter H. Fricke, 2023-10-27 *Seafarer Community* 1973 examines life on shipboard and how the communities which rely on the sea for their livelihood exist The main theme running through the chapters in this book is the observation of seafaring as an occupational community as observed by anthropologists economists geographers psychologists seafarers and sociologists The book explores the nature of seafaring communities and asks whether they exist as communities in their own right or if they are occupational subgroups within a larger community It also examines the psychological impact on seafarers of working within the closed communities of ships and analyses the problems of training and recruitment

**Seafaring Labour** Eric W. Sager, 1996 Sager argues that sailors were not misfits or outcasts but were divorced from society only by virtue of their occupation The wooden ships were small communities at sea fragments of normal society where workers lived struggled and often died With the coming of the age of steam the sailor became part of a new division of labour and a new social hierarchy at sea Sager shows that the sailor was as integral to the transition to industrial capitalism as any land worker

**Mediterranean Seafarers in Transition**, 2022-10-17 This volume discusses the effects of industrialization on maritime trade labour and communities in the Mediterranean and Black Sea from the 1850s to the 1920s The 17 essays are based on new evidence from multiple type of primary sources on the transition from sail to steam navigation written in a variety of languages Italian Spanish French Greek Russian and Ottoman Questions that arise in the book include the labour conditions wages career and retirement of seafarers the socio economic and spatial transformations of the maritime communities and the changes in the patterns of operation ownership and management in the shipping industry with the advent of steam navigation The book offers a comparative analysis of the above subjects across the Mediterranean while also proposes unexplored themes in current scholarship like the history of navigation Contributors are Luca Lo Basso Andrea Zappia Leonardo Scavino Daniel Muntane Eduard Page Campos Enric Garcia Domingo Katerina Galani Alkiviadis Kapokakis Petros Kastrinakis Kalliopi Vasilaki Pavlos Fafalios Georgios Samaritakis Kostas Petrakis Korina Doerr Athina Kritsotaki Anastasia Axaridou and Martin Doerr

The ^AHouse of Percy Bertram Wyatt-Brown, 1996-11-21 Although the novels of Walker Percy represent some of the most prominent work in twentieth century Southern fiction the Percy family itself has a history that is arguably as compelling as anything he could have created Behind Percy s prose lurks a legacy of wealth literary accomplishment political leadership depression and suicide that spans two centuries In The House of Percy Bertram Wyatt Brown a leading scholar of the South skillfully combines intensive research and telling insights to produce the unforgettable story of this gifted family The history begins with their first prominent ancestor Don Carlos Percy an eighteenth century soldier of fortune who amassed a large estate only to fall victim to mental disorder and suicide and concludes with poet and war hero Will Percy who shared his home with Walker and his brothers after the suicidal death of their father and their mother s drowning In between the author recovers the tragic lives and literary achievements of several Percy related women and chronicles the fiery life of Senator LeRoy Percy who defied the Ku Klux Klan in the 1920s Throughout his biography of this powerful dynasty Wyatt Brown draws out the twin themes of an inherited inclination to despondency and an abiding sense of honor The House of Percy reveals the surprising possibility that melancholy itself may lead to inspiring and artistically creative results      *Ibss:* *Anthropology: 1975* International Committee for Social Scien, 1978-08-24 First published in 1978 Routledge is an imprint of Taylor Francis an informa company      **Inshore Fisheries Management** David Symes, Jeremy Phillipson, 2001-12-31 Despite their importance in terms of employment and income generation inshore fisheries have been a neglected area of

study The review of the common fisheries policy especially in the light of the need to re examine the derogation which reserves access to the inshore zone to coastal state vessels provides an opportunity to redress the balance With contributions from leading authorities on fisheries management the book takes an in depth look at seven European countries examining the basis for the definition of inshore fisheries evaluating their status and describing the salient characteristics of their management The national studies form the basis for cross cultural analyses of the social organisation cultural norms economic objectives and institutional structures of inshore fisheries in Europe Finally a number of key issues relating to the future of inshore fisheries management in a more integrated approach are examined Overall the volume reaffirms the invaluable role played by inshore fisheries in the local and regional economies of Europe s complex coastline

**Place to Belong** Gerald L. Pocius, 2000 A Place to Belong is a profusely illustrated intimate contemporary portrait of Calvert a three hundred year old fishing village on Newfoundland's southern shore Often using its residents own words Gerald Pocius describes in detail the continual creative encounters between past and present between individual and community that make up daily life in Calvert By accepted standards of tradition Calvert's culture is declining Old structures are regularly torn down or renovated antique household items are replaced with modern conveniences Pocius argues however that the tangible expressions of a culture can be misleading Calvert's essence is not in the things owned and used by its residents but in the spaces in which those things abide and in the attitudes values and obligations that delineate the order of those spaces From woodlands water and fields to yards gardens and homes Calvert's physical and social structure is governed by shared concerns about the community's livelihood and welfare As a resident of Calvert puts it Where you're working in the same space with people you know it's just not practical to be falling out with everyone The sense of community that pervades Calvert is best exemplified by its annual draw for fishing berths Because productivity varies among offshore fishing grounds there is no private ownership of fishing rights Rather a lottery instituted in 1919 ensures each family the same chances for periodic access to the best fishing berths The draw continues until all the fishing berths are awarded but it is common for a family to opt out once they have drawn enough good berths There are also instances of the most successful fishing operations sharing their catches From his observations of Calvert's people at work and leisure Pocius provides evidence to confirm the viability and durability of their culture He reveals that standard assumptions about culture are inadequate particularly those based on the primacy of artefacts and on sharp dichotomies between tradition and modernity Calvert he shows belies our notion that declining cultural values and social segmentation are unavoidable side effects of modernisation and a rise in material well being A Place to Belong will promote a constructive scepticism about the ways we perceive and interpret cultures and most important will remind us of what it really means to belong to a place **Work, Consumption and**

**Culture** Paul Ransome, 2005-02-14 The central question in this book is whether consumption has now displaced production as the defining factor in the lives of those in the industrialized West Ransome offers a comprehensive review of the key issues in the debate and where it might lead in the future [Index of Conference Proceedings Received](#) British Library. Division, 1974 *State and Community in Fisheries Management* E. Paul Durrenberger, Thomas King, 2000-05-30 Those who are involved with fishing and fisheries resource management including fishermen their communities production processing distribution and marketing industries and various government and non governmental organizations confront the contradictions arising from the appropriation allocation and distribution of fisheries and marine resources in a variety of ways The authors call into question the assumptions of policy prescriptions to common resource problems by examining the experiences of people and societies confronted with and adapting to these resource appropriation allocation and distribution problems They suggest that tragedies of resource depletion and institutional failure to deal with them are not characteristic

of human nature but rather are by products of particular cultural practices institutions and assumptions The detailed empirical ethnographic study of these relationships holds great potential for informing those who are making future policy decisions as well as contributing to the theories of human behavior and cooperation to solve such problems

**International Maritime Transport** Heather Leggate,James McConville,Alfonso Morvillo,2004-08-02 The importance of the international maritime transport industry is difficult to overstate This new book presents an interdisciplinary approach from a wide range of internationally based experts International Maritime Transport represents a radical departure from previous works in its structure and approach The section editors each discuss the state of the art in the opening chapter before introducing a selection of works providing a wide ranging analysis of the subject Wide discretion of approach has provided literary freedom for individual opinion and analysis within the overall framework this permits a level of innovation which is perhaps stifled by the more standardized model Whilst each perspective can be seen as exclusive together they form a comprehensive volume of issues in contemporary maritime transport Topics covered include ports as interfaces logistics manpower and skills financial risk and opportunities the regulatory framework Each chapter contains an introduction which explains the context of the chapter within the book and the contemporary state of the art Under the editorship of maritime experts James McConville Alfonso Morvillo and Heather Leggate the book is sure to be of interest to students and academics working on maritime studies as well as being useful to professionals and policy makers in the maritime industry
