distinguishing between measurement and inference They discuss the shadow mission the work done by the visual brain to parse and perhaps discard the information from shadows shadow ownership the association of a shadow with the object that casts it shadow labeling the visual system s ability to tell shadows from nonshadows and the shadow concept our knowledge about shadows as a category Casati and Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena illumination reflection and transparency Finally they examine the art of the shadow paying tribute to artists exploration of shadow analyzing a series of artworks reproduced in color from a rich and fascinating art historical corpus

Towards version control in object-based systems Jakob Reschke, Marcel Taeumel, Tobias Pape, Fabio Niephaus, Robert Hirschfeld, 2018

Version control is a widely used practice among software developers It reduces the risk of changing their software and allows them to manage different configurations and to collaborate with others more efficiently This is amplified by code sharing platforms such as GitHub or Bitbucket Most version control systems track files e g Git Mercurial and Subversion do but some programming environments do not operate on files but on objects instead many Smalltalk implementations do Users of such environments want to use version control for their objects anyway Specialized version control systems such as the ones available for Smalltalk systems e g ENVY Developer and Monticello focus on a small subset of objects that can be versioned Most of these systems concentrate on the tracking of methods classes and configurations of these Other user defined and user built objects are either not eligible for version control at all tracking them involves complicated workarounds or a fixed domain unspecific serialization format is used that does not equally suit all kinds of objects Moreover these version control systems that are specific to a programming environment require their own code sharing platforms popular well established platforms for file based version control systems cannot be used or adapter solutions need to be implemented and maintained To improve the situation for version control of arbitrary objects a framework for tracking converting and storing of objects is presented in this report It allows editions of objects to be stored in an exchangeable existing backend version control system The platforms of the backend version control system can thus be reused Users and objects have control over how objects are captured for the purpose of version control Domain specific requirements can be implemented The storage format i e the file format when file based backend version control systems are used can also vary from one object to another Different editions of objects can be compared and sets of changes can be applied to graphs of objects A generic way for capturing and restoring that supports most kinds of objects is described It models each object as a collection of slots Thus users can begin to track their objects without first having to implement version control supplements for their own kinds of objects The proposed architecture is evaluated using a prototype implementation that can be used to track objects in Squeak Smalltalk with Git The prototype improves the suboptimal standing of user objects with respect to version control described above and also simplifies some version control tasks for classes and methods as well It also raises new problems which are discussed in this report as well

PCM is a major annual international conference organized as a forum for the dissemination of state-of-the-art technological advances and research results in the fields of theoretical, experimental, and applied multimedia analysis and processing. PCM 2010 featured a comprehensive technical program which included 75 oral and 56 poster presentations selected from 261 submissions from Australia, Canada, China, France, Germany, Hong Kong, India, Iran, Italy, Japan, Korea, Myanmar, Norway, Singapore, Taiwan, Thailand, the UK, and the USA. Three distinguished researchers, Prof. Zhi Hua Zhou from Nanjing University, Dr. Yong Rui from Microsoft, and Dr. Tie Yan Liu from Microsoft Research Asia, delivered three keynote talks to the conference. We are very grateful to the many people who helped to make this conference a success. We would like to especially thank Hong Lu for local organization, Qi Zhang for handling the publication of the proceedings, and Cheng Jin for looking after the conference website and publicity. We thank Fei Wu for organizing the special session on large-scale multimedia search in the social network settings.

Open Source Intelligence in the Twenty-First Century C. Hobbs, M. Moran, D. Salisbury, 2014-05-09 This edited book provides an insight into the new approaches, challenges, and opportunities that characterise open source intelligence (OSINT) at the beginning of the twenty-first century. It does so by considering the impacts of OSINT on three important contemporary security issues: nuclear proliferation, humanitarian crises, and terrorism.

Shadows in Alaska Jennifer J Morgan, 2024-08-06 Libby isn't thrilled that Greg and Shadow have left Arizona for Anchorage to complete their Search and Rescue training, but she and her mother plan to join them in Alaska later. Meanwhile, there is a covert plan underway between Julia and Greg. She's asked Libby's mom for her blessing, and Libby and Julia join their Alaska cruise group, and immediately Libby starts to get strange vibes from some of the other tourists. She can't wait to meet up with Greg and figure out what's going on. But then things begin to go horribly wrong. Between the tragic landslide, missing musher pups, and activists blocking their path to unraveling several mysteries, will Greg be able to pull off his surprise proposal?

Praise for the Libby Madsen Cozy Mysteries, including a finalist in the Mystery, Suspense, and Cozy Mystery categories of the 2022 American Fiction Awards. A fun read from first page to last, an impressively original and deftly crafted read. Midwest Book Review. Readers know what a sucker I am for dogs, and the Libby Madsen mysteries are some of the best. I love love love Shadow and Libby and the adventures they get themselves into. Jennifer J Morgan is destined to be one of the brightest new stars in the cozy mystery scene. Connie Shelton, USA Today bestselling author. I'm hooked on this series. Completely adore Libby and Shadow, her companion black Lab pup, so adorable. Without giving any spoilers at all, I couldn't put the book down once. Amateur sleuth.
