The Making of Shia Ayatollahs Sayed Hassan Akhlagi, 2023-04-17. The Making of Shia Ayatollahs offers both insider and outsider views of how a scholar becomes an Ayatollah in Shia Islam, how ayatollahs suggest diverse perspectives on faith, and how the grand ayatollahs are recognized by a balance of many factors including piety, scholarship, popularity, and networking. This book consists of two parts. The first begins with the core value of knowledge in Islam and the Ulama's interpretation of jurisprudence and the subjects' values and methodology they have developed and are applying to challenges found in the faithful practices in modern life. The author reveals the mechanisms of madrasa, hawza, their curricula, and the recognition of a scholar as an ayatollah. The second part elaborates the rich and sometimes bitter pluralism and debate within the community of ayatollahs regarding topics including denominational identity and intra-faith work, Sufism and mysticism, Philosophy, falsafa, and wisdom, modernization and the West, political power and government, and women in public life. After providing a historical background on each subject, the author takes the reader into the heart of current debates among ayatollahs in Qum, Mashhad, Najaf, and Beirut without sacrificing accuracy and originality to educate a wide range of readers.

An Archival Journey through the Qatar Peninsula Sue-Ann Harding, 2022-09-05. This book retrieves from the archives people, places, and perspectives normally overlooked to tell an original and expansive history of the Qatar Peninsula, paying close attention to landscape and the natural world. The arc of the book moves geographically through the landscape and chronologically through selected sources, drawing on digitised maps, manuscripts, hydrographic surveys, government records, traveller accounts, early photographs, archaeological and ethnographic reports. While these are standard sources recruited by Qatar to tell its own singular, streamlined history, this book is a subversive reading of those sources. It braids together elusive and precarious stories difficult to find, at risk of being lost, and never before brought together into a single volume to write a more complicated story of place. Through them, we can reimagine a place that like many in the world works hard to control a limited set of stories about itself. Readers who know something about Qatar will be surprised by the book's nuances and details. Readers who know little or nothing will be drawn in to discover that even in the most out-of-the-way and inhospitable places, deserts are never empty.
