## **Searching For Truth Lenten Meditations On Science And Faith:**

Searching for Truth John Polkinghorne, 1996 John Polkinghorne dares to ask the questions that would seem to be too dangerous to ask and he comes up with some answers which are deeply satisfying to both mind and heart The Dialogical Spirit Amos Yong, 2015-04-30 Contemporary proposals for Christian theology from post liberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis a vis trends in what may be called the contemporary post al age whether of the post modern post Christendom post Enlightenment post Western or post colonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology's traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both Pentecostalism and Evangelicalism one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly inter religious and theological landscape **Perspectives on Science and Christian Faith**, 1997 *God and the Scientist* Fraser Watts, 2016-04-22 This book presents a celebration survey and critique of the theological work of arguably the most important and most widely read contributor to the modern dialogue between science and theology John Polkinghorne Including a major survey by Polkinghorne himself of his life's work in theology this book draws together contributors from among the most important voices in the science theology dialogue today to focus on key aspects of Polkinghorne's work with Polkinghorne providing responses Anybody exploring contemporary aspects of the science religion debate will find this book invaluable Index to Book Reviews in Religion, 1999 *Upper Room Bulletin* Ann Arbor. Upper Room Bible Class, 1915 **The Writers Directory**, 2013 The Unitarian Advance, 1914 **Theology in Search of Foundations** Randal Rauser, 2009-08-20 In the history of Western thought Christian theology was once considered to be the Queen of Sciences Today it has been marginalised by a prevailing scepticism Randal Rauser confronts the problem of developing a public voice for the theologian as engaged in true theological science while not compromising the commitment to the Christian community of faith This book posits a viable account of theological rationality justification and knowledge that avoids the twin pitfalls of modern rationalism and postmodern irrationalism Theology is freshly understood as a rigorous and rational truth seeking discipline that seeks theoretical understanding of divine reality Throughout the modern era the predominant epistemological position has been classical foundationalism a position now widely rejected by philosophers and theologians alike Philosophers

recognize that it fails to achieve a plausible account of rationality justification or knowledge while theologians recognize the extent to which classical foundationalist strictures have distorted Christian doctrine In its place many philosophers and theologians alike have adopted a nonfoundationalist epistemology which is in turn often associated with a problematic alethic and metaphysical antirealism Engaging with the ideas of key thinkers from Descartes Locke and Kant to Bruce Marshall and Alvin Plantinga Rauser provides an accessible and provocative survey of the theological terrain of the modern and postmodern era arguing in favour of a return to a moderate foundationalism *American Book Publishing Record* ,2006

**The Truth-Seeking Heart** Ann Loades,Robert MacSwain,2006-08-29 Austin Farrer was part of the extraordinary mid 20th century group of Oxford Christians which also included C S Lewis J R R Tolkien Charles Williams and Dorothy Sayers Described as the one genius that the Church of England produced in the last century and author of incomparably the most interesting theological books ever to come out of Oxford his great legacy is that his considerable learning expressed itself as practical spiritual direction He believed that after all the argument analysis and sifting of evidence the purpose of theology was to show how to live and how to love He died in 1968 and his many books are now out of print Here is a thematically arranged anthology of his most influential writings with an extended introduction that assesses his contribution to Anglican life and through today *Forthcoming Books* Rose Arny,2003 *The Christian Science Journal* ,1910 **Surprised by**

**Jesus** Tim Stafford,2006-06-23 Tim Stafford takes us behind two dimensional images of Jesus by unearthing the specific historical and cultural situation of Jesus day He claims that what Jesus said and did was profoundly influenced by these factors In fact he says that Jesus meant to change things far more profoundly in his day and ours than we can ever imagine
