Searching Teaching Healing:

Marriage A Search For Healing Jerry M. Lewis, 2013-06-17 This work reveals those key elements that make for greater bonding with couples in therapy The author believes that improvement in the couples he treats almost always involves greater closeness and the development of greater capacity for intimacy Change can come about in different ways for different couples For some insight appears to play to play an important role Learning about one s central problematic relationship of childhood and its re enactment with one s partner in adult life frequently involves also learning about the ways one subtly recreates this dysfunctional relationship structure For others improvement appears to be closely related to experiencing new ways of dealing with conflict This avenue of improvement relies in part on the understanding but even more on learning the approaches to conflict resolution It is as if these couples need to hear over and over again the recordings that document their insensitivities and consequent failure They must offer Each Other The Experiences That Are Emotionally Supportive And Crucial for emotional and physical health and also give life its meaning Finally the treatment approach outline also has significant effects on the therapists Indeed it may be difficult to know who learns most Involvement as a couples therapist may have all sorts of impact on the therapists and it will come as surprise that it is in the area of the therapist s capacity for intimacy that the greatest effect can be experienced Teaching Religion and Healing Linda L.

Barnes, Inés M. Talamantez, 2006-10-12 The study of medicine and healing traditions is well developed in the discipline of anthropology Most religious studies scholars however continue to assume that medicine and biomedicine are one and the same and that when religion and medicine are mentioned together the reference is necessarily either to faith healing or bioethics Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups such as Christian Scientists and pentecostals Most are now aware of the work of physicians who attempt to demonstrate positive health outcomes in relation to religious practice but few seem to realize the myriad ways in which healing pervades virtually all religious systems This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities An invaluable resource for faculty in anthropology religious studies American studies sociology and ethnic studies it also addresses the needs of educators training physicians health care professionals and chaplains particularly in relation to what is referred to as cultural competence the ability to work with multicultural and religiously diverse patient populations

Resources in Education , 1998 The Search for Order W.J. Dumbrell, 2001-10-29 The Bible s eschatological framework is spread across the table for all to see in The Search for Order showing the unfolding of God s total plan for history not just the last days In a world disordered by sin Scripture describes God s goal as a reordering of corrupted creation according to William J Dumbrell The author takes into account current positions as he looks for the big eschatological picture with the

same thorough approach to biblical theology he brought to *The End of the Beginning* and *Covenant and Creation*. In the resulting thematic survey students are allowed to draw their own conclusions about the Bible's overall position on the climactic scenes of history. Ultimately they learn to conceive of eschatology less as an expectant construction of future events than as a theological approach to comprehending what God is doing today.

The Search for Compassion Andrew Purves, 1989-01-01 The meaning of compassion is more than just sympathy, empathy, pity, and concern. Compassion has a theological meaning. In this book Andrew Purves sees compassion as the center of pastoral care, holding theology, spirituality, and ministry together. He examines how a renewed compassion gives ministry shape and content which grows out of the life of God and God's care for the world.

Teaching about God and Spirituality Roberta Louis Goodman, 2002 A wide array of renowned scholars and practitioners share their ideas for teaching about God from a Jewish perspective in this comprehensive collection. This enlightening yet practical resource includes ready-to-use lessons for preschool through adult and family education as well as background material to enrich the teacher's own sense of God and spirituality. Chapters include *Writing a Personal Theology* by Dr. Neil Gillman, *The Changing Perceptions of God in Judaism* by Rabbi Rifat Sonsino, *The Spiritual Condition of American Jews* by Dr. David Ariel, *The Image of God as Teacher* by Dr. Hanan Alexander, *Spiritual Mentoring* by Dr. Carol Ochs, *Tell Me a Story* by Rabbi Sandi Eisenberg Sasso.

In Search of the Healing Spirit Nass Cannon, 2023-06-29 The late Dr. Nass Cannon Jr. MD was a physician for the indigent poor for over forty years and an internationally renowned scholar of the theologian and monk Thomas Merton. *In Search of the Healing Spirit* follows a narrative arc across several essays of Dr. Cannon's analysis and reflections on life and Thomas Merton's theological contributions. First articulated by Dr. Cannon at the outset of his journey to serve the poor, the guiding principle of the book is an exploration of what it means to be broken and called to heal each other, ourselves, and the world. As Dr. Cannon writes, "I am a physician who views his root identity as one called to heal. Yet I experience myself as broken, as one admonished by the phrase 'Physician, heal thyself.' Perhaps you too experience yourself as a broken healer. Let us together explore some notions regarding the healer as broken, examine the nature of healing, and consider the relationship of the healer to one healed. From this position as a broken healer, which implicitly embodies Merton's contemplative spirituality, Dr. Cannon's meditations over the course of his life of service increasingly weave in Merton's contributions in search of the true self on such pressing and universal topics as grief and loss, the eternal nature and healing power of love, and to do what we can for each other with the time we are given." Dr. Cannon's writings engage a twenty-first century audience with insights drawn from fifty years of study that can aid lay persons, clergy, and academics to better understand what it means to be a broken person and, through that brokenness, to heal themselves and the world.
