Writing the Land Daniel G. Payne,2009-05-05 At the time of his death in 1921 John Burroughs 1837 1921 was America's most beloved nature writer a best selling author whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs was second only to Emerson in fostering the nature study movement of the nineteenth century and the popularity of his work inspired Houghton Mifflin to publish or reissue the work of numerous other nature writers including that of Thoreau and Muir His first collection of essays *Wake Robin* was published in 1871 and over the next fifty years Burroughs wrote almost two dozen books and hundreds of essays not only on nature but on literature travel philosophy religion and science By the turn of the century Burroughs was America's most beloved nature writer whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs died in 1921 while on a train ride back to his New York from California His final words *Are we home yet* were a remarkably fitting coda to the career of a writer so closely identified with his native Catskill region of New York State In many of his essays Burroughs explores the woods and fields of home and in doing so like Henry Thoreau and his explorations of Concord Massachusetts he transcends the local and examines the universal theme of our relation with nature and our native landscape Burroughs's emphasis on place and the local now seems modern once again as the current interest in bioregionalism and climate change demonstrates it has become increasingly evident that thinking locally is thinking globally Since 1992 the SUNY College at Oneonta has hosted the biannual John Burroughs Nature Conference and Seminar *Sharp Eyes* which honors the influence of Burroughs on American nature writing Distinguished keynote speakers who have addressed the conference include John Elder John Tallmadge Joy Harjo Robin Wall Kimmerer Edward Kanze James Perrin Warren and Edward J Rinehan Jr The scope of the conference is not limited solely to Burroughs however as each year the writers and scholars in attendance direct their attention toward a particular issue of significance to contemporary nature writers and scholars of environmental literature The theme of this collection *Writing the Land* John Burroughs and his Legacy was featured in the 2006 conference and includes essays on John Burroughs as well as essays on the work of other writers who like Burroughs are linked closely through their work to a particular landscape or region The third and final section of this book features invited essays by three distinguished scholars John Tallmadge Robert Beuka and Charlotte Zo Walker who consider the topic of what writing about the land and nature means from three different perspectives urban suburban and rural **Wood Hicks and Bark Peelers** Ronald E. Ostman,Harry Littell,2016-09-07 In *Wood Hicks and Bark Peelers* Ronald E Ostman and Harry Littell draw on the stunning documentary photography of William T Clarke to tell the story of Pennsylvania's lumber heyday a time when loggers serving the needs of a rapidly growing and globalizing country forever altered the dense forests of the state's northern tier Discovered in a shed in upstate New York and a barn in Pennsylvania

after decades of obscurity Clarke's photographs offer an unprecedented view of the logging lumbering and wood industries during the late nineteenth and early twentieth centuries They show the great forests in the process of coming down and the trains that hauled away the felled trees and trimmed logs And they show the workers cruisers jobbers skidders teamsters carpenters swampers wood hicks and bark peelers their camps and workplaces their families their communities The work was demanding and dangerous the work sites and housing were unsanitary and unsavory The changes the newly industrialized logging business wrought were immensely important to the nation's growth at the same time that they were fantastically and tragically transformative of the landscape An extraordinary look at a little known photographer's work and the people and industry he documented this book reveals in sharp detail the history of the third phase of lumber in America
