Atkins,2011-10-17 Winner of a 2004 Washington State Book Award Winner of a 2004 Alpha Sigma Nu ASN Jesuit Book Award In 1893 the Washington State legislature quietly began passing a set of laws that essentially made homosexuality and eventually even the discussion of homosexuality a crime A century later Mike Lowry became the first governor of the state to address the annual lesbian and gay pride rally in Seattle Gay Seattle traces the evolution of Seattle s gay community in those 100 turbulent years telling through a century of stories how gays and lesbians have sought to achieve a sense of belonging in Seattle Gary Atkins recounts the demonization of gays by social crusaders around the turn of the century the earliest prosecutions for sodomy the official harassment and discrimination through most of the twentieth century and the medical discrimination and commitment to mental hospitals that continued into the 1970s as homosexuality was diagnosed as a disease that could be cured Places of refuge from this imposed social exile were created in underground theater and dance clubs the Gold Rush era burlesque shows modern drag theater and in mid century the emergence of openly gay bars from the Casino to Shelley s Leg Many of these were subjected to steady exploitation by corrupt police until bar owner MacIver Wells and two Seattle Times reporters exposed the racket The increasingly public

presence of gays in Seattle was accompanied by the gradual coalescence of social services and self help organizations such as the Dorian Society gay businesses and advocacy groups including the Greater Seattle Business Association and the stormy relationship between the Vatican Seattle's Catholic hierarchy and gay worshippers Atkins narrative reveals the complex and often frustrating process of claiming a civic life showing how gays and lesbians have engaged in a multilayered struggle for social acceptance against the forces of state and city politics the police the media and public opinion The emergence of mainstream political activism in the 1970s and ultimately the election of Cal Anderson and other openly gay officials to the state legislature and city council were momentous events yet shadowed by the devastating rise of AIDS and its effect on the homosexual community as a whole These stories of exile and belonging draw on numerous original interviews as well as case studies of individuals and organizations that played important roles in the history of Seattle's gay and lesbian community Collectively they are a powerful testament to the endurance and fortitude of this minority community revealing the ways a previously hidden sexual minority comes out as a people and establishes a public presence in the face of challenges from within and without

Unfolding Stakeholder Thinking Jörg Andriof, Sandra

Waddock, Bryan Husted, Sandra Sutherland Rahman, 2017-09-08 This book the first of a two volume series argues that today stakeholder thinking has evolved into the study of interactive mutually engaged and responsive relationships that establish the very context of doing modern business and create the groundwork for transparency and accountability This book makes it clear that in today s societies successful companies are those that recognize that they have responsibilities to a range of stakeholders that go beyond mere compliance with the law or meeting the fiduciary responsibility inherent in maximizing returns to shareholders If in the past the focus was on enhancing shareholder value now it is on engaging stakeholders for long term value creation The process of engagement creates a dynamic context of interaction mutual respect dialogue and change not a one sided management of stakeholders Indeed the authors believe the very term stakeholder management to be outdated and corporate centric Companies can manage their relationships with stakeholders but frequently cannot actually manage the stakeholders themselves because as the activist and collaborative initiatives described in this volume suggest company stakeholder relationships are not one way streets and different institutions bring different agendas goals and priorities to the engagement There are clear implications to the way in which stakeholder thinking is unfolding today If in the past corporate social responsibility was simply seen as profitability plus compliance plus philanthropy now responsible corporate citizenship or corporate responsibility means companies being more aware of and understanding the societies in which they operate Corporate responsibility means recognising that day to day operating practices affect stakeholders and that it is in those impacts where responsibility lies not merely in efforts to do good Companies are now faced with a wide array of challenges that mean that senior executives and managers need to be able to deal with issues including greater accountability human rights abuses sustainability strategies corporate governance codes workplace ethics stakeholder consultation and management Stakeholder thinking needs to capture these new realities The global reach of multinational corporations has served to highlight the need for the re integration of business into society relationships into stakeholder relations and ethics into managerial practice The rise in power of global activism involving NGOs and global business involving multinational corporations makes it even more critical today for companies to consider the power and interests of corporate stakeholders when developing strategic plans The interactivity and mutuality of relationships described in this book make it clear that firms and stakeholders share the power and responsibility to influence both the profit potential of the firm and how the benefits of the firm s success impact on society This important volume brings together leading academic thought on stakeholder thinking for the first time Unfolding Stakeholder Thinking will be indispensable to corporate managers NGOs and academics seeking greater understanding of the dynamics of stakeholder thinking in a world of rapidly changing responsibilities A companion volume Unfolding Stakeholder Thinking 2 focusing on practical issues such as relationship management communication reporting and performance is also available *Unfolding Perceptual Continua*

Liliana Albertazzi, 2002-01-01 The book analyses the differences between the mathematical interpretation and the phenomenological intuition of the continuum The basic idea is that the continuity of the experience of space and time originates in phenomonic movement The problem of consciousness and of the spaces of representation is related to the primary processes of perception Conceived as an interplay between cognitive science linguistics and philosophy the book presents a conceptual framework based on a dynamic and experimental approach to the problem of the continuum Besides presenting the primitives of a theory of cognitive space and time it presents a theory of the observer analyzing the relationship among perspective points of view and unity of consciousness The book's chapters deal with the dynamic elaboration and recognition of forms from the lower to the higher processes in the various perceptual fields Experimental analysis from visual auditory and tactile perception outline the basic structures of intentionality and its counterpart in language and gesture Series B Unfolding A Mandala Geri H. Malandra, 1993-07-01 Ellora is one of the great cave temple sites of India with thirty four major Buddhist Hindu and Jain monuments of the late sixth to tenth centuries A D This book describes the Buddhist caves at Ellora and places them in the context of Buddhist art and iconography Ellora's twelve Buddhist cave temples dating from the early seventh to the early eighth centuries preserve an unparalleled one hundred year sequence of architectural and iconographical development They reveal the evolution of a Buddhist mandala at sites in other regions often considered peripheral to the heartland of Buddhism in eastern India At Ellora the mandala ordinarily conceived as a two dimensional diagram used to focus meditation is unfolded into the three dimensional program of the cave temples themselves enabling devotees to walk through the mandala during worship The mandala's development at Ellora is explained and its significance is considered for the evolution of Buddhist art and iconography elsewhere in India Seattle, Past to Present Roger Sale, 1978 Seattle Past to Present interprets the history of the foremost city in the Northwest and traces the implications of that history for the city's present and future In the process Seattle emerges not as a rough half formed frontier town but as a soft city of streets and houses middle class in aspiration and achievement Roger Sale asks how it came to be that way The methods Sale employs range from demographic analysis and residential survey to portraiture and personal observation and reflection He highlights what was most important in each of the city's major periods from the founding when the settlers in waiting forty years for the railroads to come meanwhile built a city to which the railroads had to come down to the post Boeing Seattle of the 1970's when the city tried for the first time to discover a sense of itself based on the truths and lessons of its own past Along the way one finds a good deal that has been obscured or ignored in other books on Seattle and in most books on the history of American cities a discussion of the economic diversity of late nineteenth century Seattle which allowed it to grow a description of the major achievements of the first boom years in parks boulevards and neighborhoods of quiet eleganced portraits of people like Vernon Parrington Nellie Cornish and Mark Tobey who came to Seattle and flourished here an assessment of Seattle's new vitality as the result of natives and newcomers mixing both in

harmony and in antagonism **Unfolding, as It Should** Keith Canedo, 2017-09-12 According to Filipino island folklore every life has two stages of destiny hardships endured as a caterpillar that ultimately guides one's flight as a butterfly Teesa Paruparo's family needed rescuing Her father Manny's journey began in a cold and rundown orphanage in Carigara at the turn of the century Its hardships only served to shape his dreams of a better life but at what cost Marita her mother lived the life of an island princess in the picturesque fishing village of De La Cruz Her peaceful carefree days were shattered when her village was savagely attacked during World War II resulting in the heartbreaking murder of her father mother and brother and in years of struggling to survive as one of thousands of war refugee children Manny and Marita's caterpillar hardships unfortunately affected their children Teesa and her four older brothers Thomas Pete Auggie and Sam Struggling to discover their own paths in 1960s Los Angeles amid their family dysfunction and abuse brought them to the brink of disintegration But generations of adversity were infused with a strong common thread of hope And from hope came understanding and finally forgiveness not only of their parents but also of themselves Teesa Paruparo's family needed rescuing and it would come from a surprising and unexpected source God's Unfolding Battle Plan Chuck Pierce, 2010-10 A Field Manual for Advancing the Kingdom of God Chuck Pierce will continue to empower Christians to face the exciting present and future for the Church that he began to lay out in The Future War of the Church Yes we are in the midst of a battle that will only increase in strength but the victory has already been promised Outlining the next 7 year period of spiritual war 2008-2015 Pierce shows how God will advance His kingdom causing the faithful to rise up and God's will to be done here on Earth as it is in Heaven God's Unfolding Battle Plan offers a glimpse into what's ahead as well as encouragement to triumph over the attending forces of lawlessness hopelessness and violence Discover what God has said to Pierce about the upcoming period and learn how to prosper through strategic intercession worship warfare and a powerful new weapon of intercession the four watches of the night **Unfolding Stakeholder Thinking 2** Jörg Andriof, Sandra Waddock, Bryan Husted, Sandra Sutherland Rahman, 2017-09-08 This book is the companion to Unfolding Stakeholder Thinking Theory Responsibility and Engagement which examined many emerging theoretical and normative issues and was released to acclaim in October 2002 Unfolding Stakeholder Thinking 2 collects a series of essays by leading researchers worldwide to focus on the practice of stakeholder engagement in terms of relationship management communication reporting and performance As stakeholder relationships and business in society have become increasingly central to the unfolding of stakeholder thinking important new topics have begun to take centre stage in both the worlds of practice and academia The first part of the book makes clear that simply engaging with stakeholders is insufficient to build successful stakeholder strategies Companies considered as the focal entity in a relationship also need to actively communicate with stakeholders and manage their relationships Dialogue is essential but can only be useful if companies listen to the messages that stakeholders are sending them It is also essential to understand the role of power and influence in stakeholder engagement strategies especially if partnerships or

collaborations emerge from the relationships that are engendered The book examines a wide range of corporate NGO collaborations to determine what makes them effective and what makes them fail Conflict management in stakeholder alliances is also discussed The second part of the book addresses the critically important element of emerging schemes for the assessment measurement and reporting of business in society and relationships involving stakeholders A variety of current approaches to stakeholder assessment and reporting are discussed here including social auditing and sustainability reporting The evolution of stakeholder thinking has led to a new view of the firm as an organism embedded in a complex web of relationships with other organisms The role of management becomes immensely more challenging when stakeholders are no longer seen as simply the objects of managerial action but rather as subjects with their own objectives and purposes This book captures the complexity of managing relationships with stakeholders and will provide both practitioners and researchers with a wealth of information on the benefits and consequences of this practice
