there was no avoiding it The young officer was waiting for him as he came down the ramp and the deep concern he felt was not hidden in the least by his casually hearty grin Johnny held out his hand So long Burk You ve earned this leave Have fun with it Burk Winters looked out over the vast tarmac that spread for miles across the ochre desert An orderly roaring confusion of trucks and flatcars and men and ships ore ships freighters tramps sleek liners like the Starflight bearing the colors of three planets and a dozen colonies but still arrogantly and predominantly Terran Johnny followed his gaze and said softly It always gives you a thrill doesn t it Winters did not answer Miles away safe from the thundering rocket blasts the glassite dome of Kahora Trade City for Mars rose jewel like out of the red sand The little sun stared wearily down and the ancient hills considered it and the old old wandering wind passed over it and it seemed as though the planet bore Kahora and its spaceport with patience as though it were a small local infection that would soon be gone He had forgotten Johnny Niles He had forgotten everything but his own dark thoughts The young officer studied him with covert pity and he did not know it Burk Winters was a big man and a tough man tempered by years of deep space flying The same glare of naked light that had burned his skin so dark had bleached his hair until it was almost white and just in the last few months his gray eyes seemed to have caught and held a spark of that pitiless radiance The easy good nature was gone out of them and the lines that laughter had shaped around his mouth had deepened now into bitter scars

Awaiting Apocalypse P. Corcoran,1999-12-03

The current obsession with the end of the millennium illustrates the enduring power of the idea of endings This fascination cannot be simply dismissed as faulty logic a form of madness or a primitive survival of childish thinking Opening a path of understanding between ancient conceptions of meaning and the sceptical predicates of modern science *Awaiting Apocalypse* shows how ordinary and extraordinary endings are inherent in the narrative structure of human experience and the sedimentation of that experience as historical meaning

Digital Storytelling Shilo T. McClean,2008-09-26 How digital visual effects in film can be used to support storytelling a guide for scriptwriters and students Computer generated effects are often blamed for bad Hollywood movies Yet when a critic complains that technology swamps storytelling in a review of Van Helsing calling it an example of everything that is wrong with Hollywood computer generated effects movies it says more about the weakness of the story than the strength of the technology In *Digital Storytelling* Shilo McClean shows how digital visual effects can be a tool of storytelling in film adding narrative power as do sound color and experimental camera angles other innovative film technologies that were once criticized for being distractions from the story It is time she says to rethink the function of digital visual effects Effects artists

say contrary to the critics that effects always derive from story Digital effects are a part of production not post production they are becoming part of the story development process Digital Storytelling is grounded in filmmaking the scriptwriting process in particular McClean considers crucial questions about digital visual effects whether they undermine classical storytelling structure if they always call attention to themselves whether their use is limited to certain genres and looks at contemporary films including a chapter long analysis of Steven Spielberg s use of computer generated effects and contemporary film theory to find the answers McClean argues that to consider digital visual effects as simply contributing the wow factor underestimates them They are she writes the legitimate inheritors of film storycraft Fiction Index Three
