migration education can serve as critical space for examining how our society is changing and being changed by this global phenomenon This important and timely book focuses on methodological lenses to study how migration intersects with education In view of newer methodological propositions such as the reduction of participant researcher binaries along with newer technology allowing for mapping various forms of data the authors in this volume question the very legitimacy of traditional methods and attempt here to expose power relations and researcher assumptions that may hinder most methodological processes Authors raise innovative questions blur disciplinary lines and reinforce voice and agency of those
