Look Like a Winner After 50 Jo Peddicord, 1992 *Love: Making Relationships for over 50's* Freddie C. Holmes, 2019-03-28 Love can be hard and meeting someone falling in love and growing old together isn't easy. But it can be especially difficult when you're over fifty. You may have never been able to find the right one or feel like it's too late or found the one who swept you off your feet but lost them due to an unfortunate life event such as an accident or sickness or you may have just grown apart. For whatever reason, if the looking, finding, and keeping have become harder with each passing year, how do you find the love you desire? How to Find and Keep a Partner after Fifty Step by Step provides a practical and encouraging guide for you if you are over fifty and have trouble looking for love. Author Freddie C. Holmes challenges you to look within at what has happened to you in the relationship department, inviting you to change your mind set and take action. You can then learn how to attract and embrace everything you desire in a meaningful relationship, putting you on the path to a fun-filled romance with a partner you can share your bucket list with. Dating after fifty is an adventure. The good news is that it is interesting and you have many opportunities. The reason for this is that there are more potential partners available in your age group than you would have thought. But before you can embark on meeting someone new, as with any worthwhile enterprise, there are preparations and due diligence to be done to succeed. So let's not waste any more time. Are you ready to meet a new partner? [Award Winning Cosplay \(In Less Than 10 hrs. Committee on Ways and Means. Subcommittee on Public Assistance and Unemployment Compensation, 1986 *Why Men Win at Work* Gill Whitty-Collins, 2020-08-01 Why are men still winning at work? If women have equal leadership ability, why are they so under-represented at the top in business and society? Why are we still living in a man's world? And why do we accept it? In this provocative book, Gill Whitty-Collins looks beyond the facts and figures on gender bias and uncovers the invisible discrimination that continues to sabotage us in the workplace and limits our shared success. Addressing both men and women and pulling no punches, she sets out the psychology of gender diversity from the perspective of real personal experience and shares her powerful insights on how to tackle the gender equality issue. This book tells the inconvenient truth about the gender inequality issue, providing some real deep insights into what truly gets in the way of driving diversity, even in companies that are trying to do the right thing. It may be uncomfortable reading for some, but crucial for driving the needed change to create a long-term advantage.
