## HOLLYWOOD AND VIETNAM

Vietnam was like a movie that had gotten out of hand: gigantic cost overruns, a shooting schedule run amuck, squabbles on the set and back in the studio, the first attorney dying with most of the script in his head, the second quitting in disgust, and the last swearing it was finally in the can, but sneaking back to shoot some extra scenes.

negative in film the influence of sports as an alternate to mortal combat why men admire war and value winning so highly and how war films define manly courage Throughout the book the authors comment on the depiction of post traumatic stress disorder the stages of grief and suicide in war films as well as applying Jungian and Freudian theories to war and soldiering Reel Men at War will be of interest not only to professors and students of cinema and mass communications but also to scholars of history gender studies and sociology Special Bibliography Series ,1957 *Special Bibliography Series* United States Air Force Academy. Library,1990 Specters of War Elisabeth Bronfen,2012-10-03 Specters of War looks at the way war has been brought to the screen in various genres and at different historical moments throughout the twentieth century and into the twenty first Elisabeth Bronfen asserts that Hollywood has emerged as a place where national narratives are created and circulated so that audiences can engage with fantasies ideologies and anxieties that take hold at a given time only to change with the political climate Such cultural reflection is particularly poignant when it deals with America's traumatic history of war The nation has no direct access to war as a horrific experience of carnage and human destruction we understand our relation to it through images and narratives that transmit and interpret it for us Bronfen does not discuss actual conflicts but the films by which we have come to know and remember them including All Quiet on the Western Front The Best Years of Our Lives Miracle at St Anna The Deer Hunter and Flags of Our Fathers Battles and campaigns the home front and women who wait narratives war correspondents and court martials are also explored as instruments of cultural memory Bronfen argues that we are haunted by past wars and by cinematic reconceptualizations of them and reveals a national iconography of redemptive violence from which we seem unable to escape *Why We Fought* Peter C. Rollins,John E. O'Connor,2008-07-25 A wide ranging and sophisticated anthology comparing theaters of war to wars in the movie theater Dennis Showalter author of Patton and Rommel *Why We Fought* makes a powerful case that film can be as valuable a tool as primary documents for improving our understanding of the causes and consequences of war A comprehensive look at war films from depictions of the American Revolution to portrayals of September 11 and its aftermath this volume contrasts recognized history and historical fiction with the versions appearing on the big screen The text considers a selection of the pivotal war films of all time including All Quiet on the Western Front Sands of Iwo Jima Apocalypse Now Platoon and Saving Private Ryan revealing how film depictions of the country's wars have shaped our values politics and culture and offering a unique lens through which to view American history Named as a Choice Outstanding Academic Title **American Militarism on the Small Screen** Anna Froula,Stacy Takacs,2016-03-17 Anna Froula is Associate Professor of Film Studies in the Department of English at East Carolina University USA Stacy Takacs is Associate Professor and Director of American Studies at Oklahoma State University USA Bulletin of the Atomic Scientists ,1986-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **Men,**

**Masculinity and the Media** Steve Craig, 1992-02-26 Although studies of men and masculinity have gained momentum little has been published that focuses on the media and their relationship to men as men Men Masculinity and the Media addresses this shortcoming Scholars from across the social sciences investigate past media research on men and masculinity They also examine how the media serve to construct masculinities how men and their relationships have been depicted and how men respond to media images From comic books and rock music to film and television this groundbreaking volume scrutinizes the interrelationship among men the media and masculinity Screening Difference Jaap Van Ginneken, 2007-08-29 Did you know that Pocahontas probably never fell in love with John Smith as the Disney and other film versions of those events pretend That Godzilla was originally an anti American and anti nuclear movie heavily cut and supplemented with new material That Zorro was not created by an American author but derived from the much older Mexican struggle for independence That Anna and the King was largely invented That the myth of the sexually eager Hula girls is based on misunderstandings by the first explorers That Black Hawk Down and many other war movies were censored and indirectly subsidized by the Pentagon Screening Difference takes us on a fascinating voyage through major movie blockbusters that deal with the encounter between us based on white Hollywood and them the filmic representations of other races ethnicities and cultures Looking at subtle orientations in casting and make up sets and props lighting and camera movements music and language this lively book follows the best known genres and subgenres from animated cartoons to wilderness films from romantic movies to colonial adventures Screening Difference tracks the stories back to their origins and patiently dissects the hidden messages that have gradually crept into them **American Literature in Transition, 1980-1990** D. Quentin Miller, 2017-12-28 History has not been kind to the 1980s The decade is often associated with absurd fashion choices neo Conservatism in the Reagan Bush years the AIDS crisis Wall Street ethics and uninspired television film and music Yet the literature of the 1980s is undeniably rich and lasting American Literature in Transition 1980 1990 seeks to frame some of the decade s greatest achievements such as Toni Morrison s monumental novel Beloved and to consider some of the trends that began in the 1980s and developed thereafter including the origins of the graphic novel prison literature and the opening of multiculturalism vis vis the canon wars This volume argues not only for the importance of 1980s American literature but also for its centrality in understanding trends and trajectories in all contemporary literature against the broader background of culture This volume serves as both an introduction and a deep consideration of the literary culture of our most maligned decade **Power Misses** David E. James, 1996-12-17 David James insists that popular resistance to domination by the culture industry must intervene at the point of production rather than consumption In its most resolute instances from the poetry of William Blake to the British Miners Campaign Tape Project alternative culture has fused with radical politics Authoritatively mapping the terrain of cultural resistance under capitalism James examines the material contradictions and the utopian potentials articulated in John Berger s fiction Dada rock music the films of Andy Warhol and Jonas Mekas and the
