**Backward Glass** David Lomax, 2013-10-08 In 1977 Kenny Maxwell finds the mummified body of a baby in his family's old Victorian home. Then a mysterious girl introduces Kenny to a mirror that allows him to travel in time. Kenny and his new friends the mirror kids discover that Prince Harming, a dangerous figure, is hunting them. [Taking a Shower](#) Lake

Nofer, 2014-04-09 Lake Nofer was born in Columbus, Ohio, but moved to the LA area as a baby and grew up in the San Fernando Valley. She attended California State University Northridge, studying music, then switching to theater and getting her degree in Theater. She was a tour guide at Universal Studios and then went to work in the box office of the now defunct Los Angeles Theater Center. While still at the tour, she was diagnosed with Multiple Sclerosis. Finally, after working at the theater for less than a year, she had to quit due to the fatigue of MS. Today, she lives in an apartment that was built for disabled people who can live independently. Once a week, she volunteers at Learning Allies, reading for textbooks on tape. She enjoys cooking, reading, writing, and having adventures.

**Looking Backward** Edward Bellamy, 1883-12-16 Edward Bellamy's prophetic novel about a young Boston man who is mysteriously transported from the 19th to the 21st century from a world of war and want to a world of peace and plenty. The year is 2000. The place Utopian America. The hero, anyone who has ever longed for escape to a better life. Translated into more than twenty languages and the most widely read novel of its time. Looking Backward is more than a brilliant visionary's view of the future. It is a blueprint of the perfect society, a guidebook that stimulated some of the greatest thinkers of our age. Today, in the very era it attempted to visualize, it is even more compelling than ever. With an Introduction by Walter James Miller and an Afterword by Eliot Fintushel. **Reverse**

**Engineering the Universe** Dr. Jerome Heath, 2016-01-01 Ground Zero Earth. It appears that the standard solutions to our basic problems have deteriorated into yelling and screaming. I think there is a better way. I have always felt that there must be some important conflict, some large out-of-equilibrium process that drives philosophical development. In the past, that important conflict was often major wars that were quite traumatic, like the Civil War or World War I. The driving conflict could also be glaring inconsistencies in the social/cultural assumptions. This driving conflict leads the social/cultural realm to be out of equilibrium enough over a long enough period so it can cause major thought change. For the new age, I could not at first find such a traumatic conflict at least directly visible, such as in a war. What I have finally concluded is that the conflict of the new age is not any particular war but the fear of the war to end all wars. The new age has been driven by the out-of-equilibrium fear of the nuclear apocalypse. Thus, the need for a new meta-physics. So they needed to go elsewhere to seek out sources of knowledge. The standard sources seem to only know the old physical world; at least the learned sources appeared to only want to know the old physical world, which is definitely passing away in a horrible nuclear way. The physical apocalypse that the new agers saw was far worse than anything in the Apocalypse of John. Remember, although we all knew about this problem, we were not able to talk about it generally. It was too horrible. So it remains the subconscious assumption

behind our thoughts and our own philosophical development It is obvious that this driving force would engender more interest in another reality a reality that could not be affected by the final nuclear event The social cultural realm was far from equilibrium in a hidden way and thus we were driven to seek new approaches to resolving our inner conflict The new age had to happen and it had to question the meta physics Dr Jerome Heath Ph D **Dancing Backward in Paradise** Vera Jane Cook,2007-06-12 Life for Grace Place is all about sucking on meat jerkys and Lenny Bean her handsome lover However Grace s mother has loftier plans for her daughter She insists that Grace save her money and move to New York City so she can find fame and fortune as an actress Grace works as a cleaning lady for wealthy Betty Ann Houseman so she can pool her pennies for the trip north Betty Ann has a passion for men more pronounced than her overbite and it isn t long before she s parting the sheets for Lenny Bean But just before Grace leaves Hixson Tennessee for New York City she uncovers an insidious plot the Bean family is trying to steal Betty Ann s estate Without being able to help Betty Ann Grace flees to New York where she faces her darkest hours In a world of surprises Grace truly discovers paradise poetic mystery southern fiction womens fiction humorous southern writers southern books 1960s books lesbian character 1960s stories civil rights themes love stories Managing Screen Time Edmond Schoorel,2016-02-18 Screens and digital devices are everywhere in our modern world and it s becoming increasingly common for even very young children to regularly use tablets and smart phones Many parents struggle to know what s best for their children This book offers a comprehensive overview of the pros and cons to help parents make their own choices It explores the health effects of screen time as well as the benefits of new technology and the implications for education Much writing on this subject is one sided and dogmatic This thought provoking book is not designed to make parents feel guilty but to empower them to find their own balance *The Psychology of Left and Right* Michael C. Corballis,Ivan L. Beale,2020-09-10 Originally published in 1976 this title deals with the problem of how we tell left from right The authors argue that the ability to tell left from right depends ultimately on a bodily asymmetry such as preference for one or the other hand or dominance of one side of the brain This has implications for child development reading disability navigation art and culture *Counting Backwards* Laura Lascarso,2013-08-06 After stealing a car and assaulting a police officer sixteen year old Taylor is sent to a boarding school that functions as a juvenile psychiatric correctional facility where she struggles to hold onto her sanity as she battles her parents overbearing therapists and a group of particularly nasty fellow patients **Tracking the Automatic ANT** David Gale,2012-12-06 For those fascinated by the abstract universe of mathematics David Gale s columns in The Mathematical Intelligencer have been a prime source of entertainment Here Gale s columns are collected for the first time in book form Encouraged by the magazine s editor Sheldon Axler to write on whatever pleased him Gale ranged far and wide across the field of mathematics but frequently returned to favorite themes triangles tilings the mysterious properties of sequences given by simple recursions games and paradoxes and the particular automaton that gives this collection its title the automatic ant The level is suitable for those

*Looking Further Backward* Set in future of 2023 the book narrates the story of how China invades USA in 2020 after China has adopted rampant capitalism as opposed to rest of the world who are in throes of Nationalism a socialism like set up Written in a form of a diary the novel directly hits out at Edward Bellamy s 1888 Utopian novel *Looking Backward* The political drama that unfolds in this novel will make you deeply wonder how the author could foresee so much

*Disenchantment* 中国 中国 Vol. II: *Mirror Image* (1983-1986) By Zhang Kangkang, 2025-09-18 This is a book about memory and forgetting The 1980s grow increasingly distant occasionally returning with wind and snow but transformed to dust or drizzle or wavering suspended in the tainted air like a deathless specter That decade marking the end of our youth has the desolate beauty of an elegy ushering in our middle age it has the solemn and stirring quality of a processional Gravity has smashed the past into fragments that only words can laboriously piece together While knowing that it is merely a pointless addendum a futile reboot a belated tribute I have stubbornly attempted to look back and write this book

Luo Yi once said History is essentially a court that is constantly in retrial One person s biased and narrow memories are trivial against the grand and stirring historical narrative written by the victors But I ve always forgotten what should be remembered and remembered what should be forgotten The opus magnum of a writer who has experienced the whole period of the communist regime in China *Disenchantment* is filled with scenes and stories oozing authenticity
