Man On His Past The Wiles Lectures:

Man on His Past Herbert Butterfield,1955 This book is an extended version of the Wiles lectures and illustrates the rise scope methods and objectives of the history of historiography **Man on His Past** Herbert Butterfield,1969 Man on His Past Herbert Butterfield,1955 Man on His Past Herbert Butterfield,1960 **Man on His Past** Herbert Butterfield,1955

Modernizing England's Past Michael Bentley,2006-01-12 What came before postmodernism in historical studies By thinking through the assumptions methods and cast of mind of English historians writing between about 1870 and 1970 this book reveals the intellectual world of the modernists and offers a full analysis of English historiography in this crucial period Modernist historiography set itself the objective of going beyond the colourful narratives of whigs and popularizers in order to establish history as the queen of the humanities and as a rival to the sciences as a vehicle of knowledge Professor Bentley does not follow those who deride modernism as positivist or empiricist but instead shows how it set in train brilliant new styles of investigation that transformed how historians understood the English past But he shows how these strengths were eventually outweighed by inherent confusions and misapprehensions that threatened to kill the very subject that the modernists had intended to sustain **Man on His Past** Herbert Butterfield,1955 **Herbert Butterfield and the**

Interpretation of History K. Sewell,2005-01-13 This book examines successive stages in the development of the thought of Sir Herbert Butterfield in relation to fundamental issues in the science of history In a carefully nuanced way it lays bare the unspoken motivations and hidden tensions in Butterfield s debate with himself and with a host of contemporary historians in the period between 1924 79 The Life and Thought of Herbert Butterfield Michael Bentley,2011-04-21 Once recalled only for The Whig Interpretation of History 1931 and Christianity and History 1949 Sir Herbert Butterfield s contribution to western culture has undergone an astonishing revaluation over the past twenty years What has been left out of this reappraisal is the man himself Yet the force of Butterfield s writings is weakened without some knowledge of the man behind them his temperament contexts and personal torments Previous authors have been unable to supply a rounded portrait for lack of available material particularly a dearth of sources for the crucial period before the outbreak of war in 1939 Michael Bentley s original startling 2011 biography draws on sources never seen before They enable him to present a new Butterfield one deeply troubled by self doubt driven by an urgent sexuality and plagued by an unending tension between history science and God in a mind as hard and cynical as it was loving and charitable **Cultural Foundations of Industrial Civilization**

, **Herbert Butterfield** Kenneth B. McIntyre,2023-10-03 The most original historian of his generation That is how the celebrated British academic Noel Annan described Herbert Butterfield 1900 1979 a profound and prolific writer who made important contributions as both a public and academic historian In this authoritative and accessible intellectual biography Kenneth B McIntyre explores the extraordinary range of Butterfield s work He shows why the small book The Whig Interpretation of History 1931 achieved such large influence Butterfield he demonstrates has profoundly shaped American

and European historiography by highlighting the distortions that occur when historians interpret the past merely as steps along the way toward the glorious present But McIntyre delves much deeper examining everything from Butterfield's lectures on history historiography and Christianity to his warnings about the dangers of hubris in international affairs to his essays on the origins of modern science which basically created the modern discipline of the history of science This latest volume in the acclaimed Library of Modern Thinkers series helps us understand a prescient and insightful thinker who challenged dominant currents in history historiography international relations and politics **Herbert Butterfield C.T.** McIntire, 2008-10-01 Herbert Butterfield 1900 1979 was an important British historian and religious thinker whose ideas in particular his concept of a Whig interpretation of history remain deeply influential In this intellectual biography the first comprehensive study of Butterfield C T McIntire focuses on the creative processes that lay behind Butterfield's intellectual accomplishments Drawing on his investigations into Butterfield's vast and diverse output of published and unpublished work McIntire explores Butterfield's ideas and methods He describes Butterfield's lifelong devotion to his Methodist faith and shows how his Christian spirituality animated his historical work He also traces the theme of dissent that ran through Butterfield's life and work presenting a man who found himself at odds with prevailing convictions about history morality politics religion and teaching a man who elevated the notion of dissent into an ethic of living in tension with any established system Worlds Made by Words Anthony Grafton, 2009 Italian cinemas after the war were filled by audiences who had come to watch domestically produced films of passion and pathos These highly emotional and consciously theatrical melodramas posed moral questions with stylish flair redefining popular ways of feeling about romance family gender class Catholicism Italy and feeling itself The Operatic and the Everyday in Postwar Italian Film Melodrama argues for the centrality of melodrama to Italian culture It uncovers a wealth of films rarely discussed before including family melodramas the crime stories of neorealismo popolare and opera films and provides interpretive frameworks that position them in wider debates on aesthetics and society The book also considers the well established topics of realism and arthouse auteurism and rethinks film history by investigating the presence of melodrama in neorealism and post war modernism It places film within its broader cultural context to trace the connections of canonical melodramatists like Visconti and Matarazzo to traditions of opera the musical theatre of the sceneggiata visual arts and magazines In so doing it seeks to capture the artistry and emotional experiences found within a truly popular form **Biographical Memoirs of Fellows, I** Thompson, 2003-01-16 Volume 115 of the Proceedings of the British Academy contains 20 obituaries of recently deceased Fellows of the British Academy and an essay on James Bryce President of the Academy 1913 1917 Memoirs of Fellows have previously been published in the same annual Proceedings volume as that containing the British Academy's Lectures The Biographical Memoirs are henceforth to be published in a volume of their own within the Proceedings sequence Studies in Tudor and Stuart Politics and Government: Volume 4, Papers and Reviews 1982-1990 G. Hugh

Trevor-Roper Blair Worden, 2015-01-02 Hugh Trevor Roper was one of the most gifted historians of the twentieth century His scholarly interests ranged widely from the Puritan Revolution to the Scottish Enlightenment Yet he was also fascinated by the events of his own lifetime and wrote widely on issues of espionage and intelligence as well as maintaining a fascination with the workings and personalities of Nazi Germany In this volume a variety of contributors many of whom knew Trevor Roper personally engage with his scholarship and analyse his greatest achievements as an historian Covering the full range of Trevor Roper's interests this volume will be essential for anyone who wishes to better understand this great historian and his work

Transdisciplinarity

Basarab Nicolescu, 2008 In this fascinating volume the contributors make it very clear that far from being a faddish and superficial phenomenon transdisciplinarity is potentially the foundation for a new and much needed approach to inquiry Transdisciplinarity goes beyond the dualism of opposing binary pairs subject object subjectivity objectivity matter consciousness nature divine simplicity complexity reductionism holism diversity unity which

have marked the history of ideas for millennia Because transdisciplinarity is radical in the sense that it goes to the roots of knowledge and questions our way of thinking and our construction and organization of knowledge It requires a discipline of self inquiry that integrates the knower in the process of knowing Nicolae's vision of transdisciplinarity and that of the international contributors to this volume goes beyond cognitivism and the focus on analytic intelligence to propose a new type of intelligence that reflects a harmony between mind feelings and body

Reform and Renewal Elton, 1973-03-01

Scholarship has established the prevalence of a reformist ideal of the Commonwealth in early Tudor England but concentration on scholars and writings has led to a neglect of affairs and politics This study attempts to discover the fate of reforming programmes when efforts were made to translate them into reality and it uses the administration of Thomas Cromwell as a test case Cromwell it is well known favoured advanced thinkers and promoted much parliamentary legislation how far can we see him as a proponent of commonwealth politics and what success did we have A close look establishes him as a man who without formal training practised the techniques of the learned and behaved as an intellectual He also emerges as an evangelical in religion a believer in the via media between extremes on which the Church of England was to erect its particular form of religion As the only experienced parliamentarian in the group he also knew how to handle the instrument of reform The study discusses this work in two main respects reforms in the economy and reform of the law
