**Achieving the Competitive Edge Through Integrated Technology Management** Gerard H. Gaynor,1991 Dynamics of Fluid and Structural Interations Jannette Behrndtz Frandsen,2012-05-15 The book s aim is to integrate the topics of fluid and structural dynamics a developing field in research and academia The purpose of this integration is to identify the causes of structural vibration problems which can be experienced on large engineering structures such as buildings bridges or oil installations and to prevent them at the design stage There are currently no books of this type offered to the primary target group structural engineers There are textbooks on wind loading structural dynamics ocean engineering presented as separate topics but very little material in the literature which attempts to integrate fluid structural dynamics Integration of accurate description of fluid loading and the structural response can provide important knowledge to structural engineers in their analysis and design of structures The book will therefore be of interest to engineers in all areas who have an interest in fluids structures and general vibration problems The book will contribute to the next generation of tools for improving the performance of large structures in coastal areas in the ocean and other areas where large structures will be built It will prepare the new generation of engineers for thorough plans of mitigation strategies in early phases of the analysis and design of structures thus potentially saving human lives during natural hazard events Integrates the study of fluid and structural dynamics Explains and assesses damping techniques Many worked examples and solutions

**Knowledge Management as a competitive edge in a global economy** Maria; Matsilele,2012-07-12 The book focuses on how knowledge is being transformed and managed at companies for competitive advantage and as well as for economic benefits Companies should take it upon themselves to appoint people who are capable of uplifting their knowledge base and enhancing their organization s intellectual property they should appoint people who are in a position to learn fast and adjust to internal as well as to external forces of change Thus training and development should form part and parcel of a company that is prepared to move ahead of its competitors Through the right channels of addressing constant changes that are taking place in the market the company should have a special way of doing business and of possessing special knowledge that will put it ahead of its competitors The book is written in the academic format but can be well understood by readers who are not experts in the field as academic jargon is used to the minimal It is written in

simple language which could be understood by readers who have a reasonable mastery of the English language The book has 58 pages 16 606 words it also has 3 figures and 2 tables The glossary is provided at the end of the chapters to assist the readers who may not be familiar with certain concepts      *Strategy and Strategists* James Cunningham,Brian Harney,2012-03-29 Importantly this stimulating text
