Singing for Themselves Patricia

Spence Rudden, 2009-03-26 *Singing for Themselves Essays on Women in Popular Music* is a fresh look at a topic that has attracted increasing interest in recent years. In this collection, scholars from a number of disciplines look at various artists and movements and come to some new conclusions about the ways in which female artists have contributed to the past four decades of pop, rock, blues, and punk. From new looks at major artists Etta James, Laura Nyro, and Patti Smith to later figures Ferron, Björk, and Melissa Etheridge, these chapters suggest new ways to view and hear music that is already part of our culture. Essays on the Indigo Girls, Dixie Chicks, and Destiny's Child prove that the girl groups tradition is alive and well but with additional new dimensions, and a three-essay section on Joan Jett and the Riot Grrrls phenomenon sheds new light on their implications for feminist artistic expression. The final piece, an annotated bibliography of academic writing on women in rock, helps make this collection a useful addition to the library of students of popular music, while the solid research and accessibility of the text make this a good choice for the general reader as well as the seasoned scholar. If you think that adoration of certain pop music is a guilty pleasure not worthy of higher intellectual aspirations, then *Singing For Themselves* offers absolution. It's far from trivial to ponder the Tao of Canadian singer Ferron, the classical allusions of Laura Nyro's lyrics, the postfeminist booty shaking of Destiny's Child, or the historical milieu that turned Jamesetta Hawkins into blues great Etta James. Reading these essays made me want to go right back to the music, feeling wiser, yes, but also validated in the desire to go as deep as any song or singer can take me. Michele Kort, author of *Soul Picnic: The Music and Passion of Laura Nyro* and senior editor at *Ms* magazine. I've read *Singing for Themselves: Essays on Women in Popular Music* and am happy to provide an endorsement. *Singing for Themselves* is a consistently interesting collection of new essays on women and popular music. The collection is all the more welcome for being so current. It mixes essays on recent phenomena such as electronic punk group Le Tigre and the Dixie Chicks' stirring of political controversy with new perspectives on canonical figures like Patti Smith or Etta James. The essays gathered here are written with clear commitments but all are marked by care and scholarly rigour. I found the interdisciplinary breadth of *Singing for Themselves* refreshing; new avenues for research are opened up here, and new theoretical paradigms are explored. Will Straw, PhD, Acting Director, McGill Institute for the Study of Canada, Associate Professor, Department of Art History and Communication Studies. Opening this book was like opening the door onto a surprise party. Everyone I've ever wanted to meet was in there, including myself. Ferron. [The Great Rock Discography](#)

Hearing Harmony offers a listener based philosophical psychological theory of harmonic effects for Anglophone popular music since the 1950s It begins with chords their functions and characteristic hierarchies then identifies the most common and salient harmonic progression classes or harmonic schemas The identification of these schemas as well as the historical contextualization of many of them allows for systematic exploration of the repertory's typical harmonic transformations such as chord substitution and harmonic ambiguities Doll provides readers with a novel explanation of the assorted aural qualities of chords and how certain harmonic effects result from the interaction of various melodic rhythmic textural timbral and extra musical contexts and how these interactions can determine whether a chordal riff is tonally centered or tonally ambiguous whether it sounds aggressive or playful or sad whether it seems to evoke an earlier song using a similar series of chords whether it sounds conventional or unfamiliar
