Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman, 2017-03-20 In Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman critically examines the sentencing policies of Bangladesh and demonstrates that the country s sentencing policies are not only yet to be developed in a coherent manner and shaped with an appropriate and contextual balance but also remain part of the problem rather than part of the solution The author forcefully argues that the conception of sentencing policies cannot and should not always be confined exclusively to institutional understandings The typical realities of post colonial societies call for rethinking the traditional judiciary centred understanding of what is meant by

criminal sentences This book thus raises the question for theoretical sentencing scholarship whether the prevailing judiciary centred understanding of sentencing should be rethought

Popular Punishment Jesper Ryberg, Julian V. Roberts, 2014 Should public opinion determine or even influence sentencing policy and practice Should the punishment of criminal offenders reflect what the public regards as appropriate These deceptively simple questions conceal complex theoretical and methodological challenges to the administration of punishment In the West politicians have often answered these questions in the affirmative penal reforms have been justified with direct reference to the attitudes of the public This is why the contention that politicians should bridge the gap between the public and criminal justice practice has widespread resonance Criminal law scholars for their part have often been more reluctant to accept public input in penal practice and some have even held that the idea of consulting public opinion constitutes a populist approach to punishment The purpose of this book is to examine the moral significance of public opinion for penal theory and practice For the first time in a single volume the editors Jesper Ryberg and Julian V Roberts have assembled a number of respected criminologists philosophers and legal theorists to address the various aspects of why and how public opinion should be reflected in the way the criminal justice system deals with criminals The chapters address the myriad complexities surrounding this issue by first weighing the justifications for incorporating public views into punishment practices and then considering the various ways this might be achieved through juries prosecutors restorative justice programs and other means

Questioning Capital Punishment James R. Acker, 2014-06-13 The death penalty has inspired controversy for centuries Raising questions regarding capital punishment rather than answering them *Questioning Capital Punishment* offers the footing needed to allow for more informed consideration and analysis of these controversies Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical empirical and normative perspectives about death penalty policies and practices This book is ideal for upper level undergraduate and graduate classes in criminal justice
