working with children on the autism spectrum and many of these plays were performed jointly with typically developing children to great success This process truly enhanced the communication skills of the child actors as well as helped develop in them an understanding of autism Many friendships were created during the rehearsal and performance process as children learned about one another's differences and commonalities In a world where communication is sorely lacking Ruggiero believes that physical emotional and intellectual expression found in the performing arts is crucial for the success in personal and professional relationships Helping children perform these plays will advance that notion
