David J. Mattingly, 2013-12-05 Despite what history has taught us about imperialism s destructive effects on colonial societies many classicists continue to emphasize disproportionately the civilizing and assimilative nature of the Roman Empire and to hold a generally favorable view of Rome s impact on its subject peoples Imperialism Power and Identity boldly challenges this view using insights from postcolonial studies of modern empires to offer a more nuanced understanding of Roman imperialism Rejecting outdated notions about Romanization David Mattingly focuses instead on the concept of identity to reveal a Roman society made up of far flung populations whose experience of empire varied enormously He examines the nature of power in Rome and the means by which the Roman state exploited the natural mercantile and human resources within its frontiers Mattingly draws on his own archaeological work in Britain Jordan and North Africa and covers a broad range of topics including sexual relations and violence census taking and taxation mining and pollution land and labor and art and iconography He shows how the lives of those under Rome s dominion were challenged enhanced or destroyed by the empire s power and in doing so he redefines the meaning and significance of Rome in today s debates about globalization power and empire Imperialism Power and Identity advances a new agenda for classical studies one that views Roman rule from the perspective of the ruled and not just the rulers In a new preface Mattingly reflects on some of the reactions prompted by the initial publication of the book **Dictionnaire des orientalistes de langue française**
