features of expression are connected to multimodal stylistic indices through talk thus styles emerge from discourse Styles are adapted to changing contexts and develop in the course of social processes The analytical perspective chosen proposes an alternative to current approaches to variability under the influence of the so called variationist paradigm **CMJ New Music Report** ,2002-10-21 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ s trade publication compiles playlists for college and non commercial stations often a prelude to larger success *The Herd Register of the American Guernsey Cattle Club* ,1920
