Sailing and Social Class Alan O'Connor, 2024-04-23 This book explores the sociology of sailing and yachting Drawing on original research and employing a theoretical framework based on the work of Pierre Bourdieu the book argues that sailing is still an upper middle class activity that has much to tell us about the wider sociology of leisure and sport The book examines the historical foundations of blue water sailing as established by naval and colonial shipping to trace the roots of contemporary sailing and yachting culture It also examines archives of sailing narratives and cruising guides as well as the children's books of Arthur Ransome arguing that this archival material offers a social rather than a psychological interpretation of the bodily investment in sailing The book uses Bourdieu's concepts of *illusio* an investment of time emotion and body into a worthwhile activity and *habitus* or *lifeworld* alongside contemporary data sets to examine the yacht club as a social institution including why many boats never go out on the water the relationship between yacht clubs and the state and social issues as manifested in yacht clubs such as sexism racism and homophobia Offering a vigorous sociological critique of yachting and sailing this book is fascinating reading for anybody with an interest in the sociology of leisure and sport subcultures social theory or social issues in wider society
