There are insights into the social as well as nautical reality of preparing the boat, the comfort of having highly detailed plans, the inside story of life with a crew coping with unexpected gales and calms, the live or die decision to keep watches or not and the ports of call from Spain to Tobago via the Atlantic islands and West Africa. This fourth edition has been substantially expanded with extra information on types of boat, anchoring, sleep and watch keeping, weather and climate and the impact of Atlantic weather systems on timings and conditions of crossings. Latest developments in technology, navigation, self-steering equipment, alternatives to the standard routes across sailing back from the US to the UK, this edition will get you home. I shall enjoy dipping into this dream maker time and again. An excellent guide to the planning of your Atlantic crossing. Read all the other books but keep this one beside you.
