Saint Ninian:

The Chapel and Burial Ground on St Ninian's Isle, Shetland: Excavations Past and Present: v. 32 Rachel C. Barrowman, 2017-12-02 This volume is the definitive account of the excavation which led to the discovery of the magnificent hoard of 28 pieces of Pictish silverware on St Ninian's Isle Shetland in 1958 It includes a reassessment of the original archives and finds including an ogham stone found on the site in 1876 and a fantastic collection of glass beads as well as several new small scale excavations on the site of the chapel and its burial ground Taken together this work reveals a long sequence of settlement beginning in the Iron Age The first church was built on the site in the 8th century and accompanied by a long cist cemetery with cross incised stones and shrine sculpture The church may have continued in use into the 9th or 10th centuries and the recent work has confirmed that the famous hoard was buried into its floor There was a degree of continuity between the pre Christian and Christian burials with evidence that the site was a special place for burial before the advent of Christianity The report describes these burials in detail ending the story sometime between the 11th and end of the 12th centuries when an adult male who had died a violent death was moved to be buried on the site Thereafter the site was inundated with wind blown sand A new chapel with an accompanying long cist cemetery was then built above the earlier church and a chancel was added later The associated graveyard continued in use until around 1840 long after the building was demolished

Wilfrid Bonser, 1957 **Kind Neighbours: Scottish Saints and Society in the Later Middle Ages** Tom Turpie, 2015-08-31 In Kind Neighbours Tom Turpie explores devotion to Scottish saints and their shrines in the later middle ages He provides fresh insight into the role played by these saints in the legal and historical arguments for Scottish independence and the process by which first Andrew and later Ninian were embraced as patron saints of the Scots Kind Neighbours also explains the appeal of the most popular Scottish saints of the period and explores the relationship between regional shrines and the Scottish monarchy Rejecting traditional interpretations based around church led patriotism or crown patronage Turpie draws on a wide range of sources to explain how religious political and environmental changes in the later middle ages shaped devotion to the saints in Scotland

Astell, 2024-07-15 Through close examination of ancient medieval and modern Lives of the saints Ann W Astell demonstrates how the historical transformation of hagiography as a genre correlates with similar

changes in biblical studies Christian hagiography flourished from the fourth to the fifteenth centuries illuminating the gospel through the overlapping forms of *exempla* and *vita* Originally the Lives of the saints were understood as hermeneutical extensions of the Bible God authors the saint just as God authors the divinely inspired scriptures During the medieval period a sense of dual authorship between God and the cooperating saint developed paralleling the Scholastic impulse to assign greater agency to the human writers of scripture Then in the sixteenth century powerful new anxieties about historical truth pushed hagiography aside for biography its successor Drawing on her expertise in the history of Christianity and biblical exegesis Astell convincingly shows how this radical shift in hagiography's status the loss of the literal allegorical tropological and anagogical senses of the Lives serves as a bellwether for modern biblical reception
