Drijvers, 2024-12-11 The studies in this volume are drawn together from a widely scattered set of publications many difficult of access They exemplify the variety of influences religious cultural political that interacted in Syria in Late Antiquity and the range of responses that these evoked in changing historical circumstances The first section of the book is concerned with the development of Syriac Christianity with particular articles looking at the relations between Christians and Jews and at the position of holy men There follow two sections focusing on Marcionism and on Manichaeism while the final studies examine aspects of Syriac Christianity after the Arab conquests Syriac Christianity under Late Sasanian and Early Islamic Rule G.J. Reinink, 2023-07-28

The articles in this volume are concerned with the literary responses of the Syriac communities in the Middle East to the drastic political changes of the 7th and 8th centuries in particular the Persian occupation of the eastern provinces of Byzantium under Khosrau II and the Islamic conquests and Umayyad rule Several studies discuss the influential Syriac works concerning Alexander the Great written shortly after AD 628 which present the Byzantine emperor Heraclius as a new Alexander attention is given to their polemical and propagandistic functions and to their influence on early apocalyptic texts which respond to the Arab conquests and Abd al Malik's religious propaganda at the end of the 7th century Other studies deal with the beginnings of Syriac apologetic literature in response to early Islam discussing texts of the first decades of the 8th century The remaining articles focus on the religious controversies in the East Syrian community in connection with the increasing political influence of the Syrian Orthodox in Persia by the end of the 6th and the beginning of the seventh century and the after effects of Syriac anti Islamic apologetics in a medieval encyclopedic text *Syriac Polemics* Wout Jac. van Bekkum, Jan Willem Drijvers, Alexander Cornelis Klugkist, 2007 This Festschrift

Missionary Stories and the Formation of the Syriac Churches Jeanne-Nicole Mellon Saint-Laurent, 2015-06-19 Missionary Stories and the Formation of the Syriac Churches analyzes the hagiographic traditions of seven missionary saints in the Syriac heritage during late antiquity Thomas Addai Mari John of Ephesus Simeon of Beth Arsham Jacob Baradaeus and Ahudemme Jeanne Nicole Mellon Saint Laurent studies a body of legends about the missionaries voyages in the Syrian Orient to illustrate their shared symbols and motifs Revealing how these texts encapsulated the concerns of the communities that produced them she draws attention to the role of hagiography as a malleable genre that was well suited for the idealized presentation of the beginnings of Christian communities Hagiographers through their reworking of missionary themes asserted autonomy orthodoxy and apostolicity for their individual civic and monastic communities positioning themselves in relationship to the rulers of their empires and to competing forms of Christianity Saint Laurent argues that missionary hagiography is an important and neglected source for understanding the development of the East and West Syriac ecclesiastical bodies the Syrian Orthodox Church and the Church of the East Given that many of these Syriac speaking churches remain today in the Middle East and India with diaspora communities in Europe and North America this work opens the door for further study of the role of saints and stories as symbolic links between ancient and modern traditions

When Christians First Met Muslims Michael Philip Penn, 2015-03-21 The first Christians to meet Muslims were not Latin speaking Christians from the western Mediterranean or Greek speaking Christians from Constantinople but rather Christians from northern Mesopotamia who spoke the Aramaic dialect of Syriac Living under Muslim rule from the seventh century to the present Syriac Christians wrote the first and most extensive accounts of Islam describing a complicated set of religious and cultural exchanges not reducible to the solely antagonistic Through its critical introductions and new translations of this invaluable historical material When Christians First Met Muslims allows scholars students and the general public to explore the earliest interactions between what eventually became the world s two largest religions shedding new light on Islamic history and Christian Muslim relations

From Ephrem to Romanos Sebastian Brock, 2024-12-11 It is often forgotten that many people in Late Antique Syria were bilingual in Syriac and Greek The 16 articles in this volume explore different aspects of the interaction between these two literary cultures exemplified in the works of two of the greatest Christian poets and hymnographers of the period Ephrem the Syrian and Romanos the Melode Among the topics covered are the legend of King Abgar and the origins of Christianity in Edessa Syriac texts on the finding of

the Cross translations from Syriac into Greek and Greek into Syriac with specific studies on the Aristotle commentary tradition and Hunayn's translation of Hippocrates Aphorisms The volume concludes with the case of a distinctive topos employed by Greek and Latin scribes but whose earliest and latest attestations are to be found in colophons of Syriac manuscripts

History and Religion in Late Antique Syria H. J. W. Drijvers, Hendrik Jan Willem Drijvers, 1994 These studies deal with the complex and variegated phenomenon of Syriac Christianity as a cultural system in and through which the many religious communities in Late Antiquity in the Syriac East identified themselves and came to terms with other religions and changing historical situations

A Memory of Violence Christine Shepardson, 2025 A Memory of Violence traces the rhetorical strategies of religious radicalization that encouraged fifth and sixth century miaphysite Christians to be willing to suffer physical deprivation and harm rather than abandon the church that the late Roman Empire defined as heresy after the Council of Chalcedon in 451 These Syriac texts created genealogies of orthodoxy and heresy represented their heroes as martyr saints and reminded their followers of God's coming judgment Later they gained renewed relevance when they were copied and translated under the emerging Umayyad caliphate of Islam This book reshapes representations of late antiquity by centering Syriac Christianity in these complex and politicized doctrinal conflicts Tracing these rhetorical strategies not only sheds light on early Christian history in the Middle East but also provides a rich case study of religious schism devotion and survival that continues to resonate today

After Bardaisan G. J. Reinink, Alexander Cornelis Klugkist, 1999 The present collection of twenty five studies represents the general theme of continuity and change as applied to various topics connected with the rich heritage of Syriac culture These studies cover the period from the early third to the fourteenth centuries with an incidental excursion into modern times The focal areas are early Syriac Christianity and its Umwelt and the later West Syrian and East Syrian traditions Most of the contributions deal with historical subjects with the general theme elaborated in two different directions first ecclesiastical history monasticism hagiography and theology and second secular history literature scholarship ideas and religions In a more specific sense the contributions focus on patterns of cultural continuity and change such as the influence and reception of Greek secular and theological culture and literature developments within early and later Syriac asceticism religious controversy the interaction between different religious communities and the effects of major political and social changes on the cultural and religious life of the various Syriac communities One of the most radical political changes in the Middle East concerns the Arab conquest and the rise of Islam in the seventh century Some authors explicitly discuss the consequences of these changes for the Christian Syriac and Armenian populations The

effects of these historical events on intellectual social and economic life are some of the topics discussed in this connection Of particular interest is the number of newly edited Syriac texts in this volume which make available translations of Greek theological works resulting from the reception of pagan philosophy and magic texts reflecting popular belief **From Ephrem to Romanos** Sebastian P. Brock, 1999 It is often forgotten that many people in Late Antique Syria were bilingual in Syriac and Greek The 16 articles in this volume explore different aspects of the interaction between these two literary cultures exemplified in the works of two of the greatest Christian poets and hymnographers of the period Ephrem the Syrian and Romanos the Melode Among the topics covered are the legend of King Abgar and the origins of Christianity in Edessa Syriac texts on the finding of the Cross translations from Syriac into Greek and Greek into Syriac with specific studies on the Aristotle commentary tradition and Hunayn's translation of Hippocrates Aphorisms The volume concludes with the case of a distinctive topos employed by Greek and Latin scribes but whose earliest and latest attestations are to be found in colophons of Syriac manuscripts *Studies in Syriac Christianity* Sebastian P. Brock, 1992 The main concern of these articles is the interaction of Syriac with Greek culture in Late Antiquity The book includes an examination of the process of translation from Greek into Syriac studies of a number of unusual Greek texts in Syriac and inter church relations in the 5th 7th centuries
