Saladin: Sultan of the Holy Sword Kathrine Sorley Walker, 1971 *The Library of the Palestine Pilgrims' Text Society: Life of Saladin, Beha Ed-Din* Palestine Pilgrims' Text Society (London, England), 1897 **The Wizard of the Damavand** Joseph Richardson Parke, 1910 **The Knights Templar** Stephen Howarth, 1982 The age of the Crusades encompassed the rise and fall of a singular Order of fighting men equally devoted to God war and the defense of Palestine After the Crusades the Templars obeyed no one except the Pope and acquired land and castles by gift conquest and purchase becoming a church within the Church They were bankers merchants diplomats and tax gatherers and though they themselves were poor the wealth of their Order was legendary As the nation states arose the Templars were accused of heresy treachery sodomy usury blasphemy and idolatry The author assesses the faults and fine qualities of the brotherhood examining the reasons for its initial allure and eventual ignominious obliteration *Historical Dictionary of the Crusades* Corliss K. Slack, 2013-05-09 The crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from Western Europe from the late 11th to the early 14th centuries for the purpose of wresting Jerusalem and the Holy Land from the control of the Muslims In the end it was the Muslims who won and the Christians who suffered a major setback and the Middle East remained firmly in Muslim hands This was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over That is no longer the case with many Muslims regarding Western interference in the region as a repeat of the crusades while launching their own jihads So while an old

conflict it is still with us today Even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today This Historical Dictionary of the Crusades cannot claim to have resolved it but it most definitely does make the situation easier to understand The introduction provides an overview tracing the crusades from one expedition to the next and assessing their impact The actual flow of events is far easier to follow thanks to the chronology And maps help to trace the events geographically The entries and there are more than 300 of them in this second edition look more closely at notable figures including Pope Gregory VII Richard the lionhearted and Saladin as well as important places Jerusalem Constantinople and others events battles and sieges as well as the use of weapons and armor The bibliography points to further reading The Routledge Companion to the Crusades Peter Lock,2013-04-15 A compilation of facts figures maps family trees summaries of the major crusades and their historiography the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century and gives a chronological framework and context for modern research on the crusading movement Not just a history of the Crusades but an overview of the logistical economic social and biographical history this is a core text for students of history and religious studies **Encounter between Enemies: Captivity and Ransom in the Latin Kingdom of Jerusalem** Yvonne Friedman,2021-10-25 This fascinating study examines the customs legal codes and socioeconomic mechanisms that evolved from the initial Christian Muslim encounter on Crusader battlefields It pinpoints changes in European mentality and conduct of war tracing acculturation processes in Frankish society in the Levant These changes emerged from the need to redeem captives making payment of ransom to the infidel conceivable and acceptable The book pays special attention to the story of the vanquished to the situation of women to the behavior of the Military Orders toward captives and to the image of the captive in Crusader literature in the context of making war and peace The Postcolonial Middle Ages J. Cohen,2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide spread interest in the effects of colonization and displacement This collection of essays is the first to apply post colonial theory to the Middle Ages and to critique that theory through the excavation of a distant past The essays examine the establishment of colony empire and nationalism in order to expose the mechanisms of oppression through which aboriginal native or simply pre existent cultures are displaced eradicated or transformed **Jihadi Intelligence and Counterintelligence** Ferdinand J. Haberl,2023-03-22 This book analyzes the ideological roots structures and operational methods of Jihadi intelligence and counterintelligence activities Based on a substantive collection of data on terrorist attacks communication channels recruitment methods manuals and statements released by various Jihadi groups it examines and compares the nature ideology and realities of Jihadi intelligence operations The author an expert on Jihadist ideology and paramilitary intelligence compares the modus operandi of terrorist groups such as al Qaeda and the IS with those of governmental intelligence agencies and subsequently analyzes the role of historical and religious narratives that help Jihadist
