Hunt, Monalisa McCurry-Mullins, 2006-03-01 This book is not a comprehensive history of moral education in American schools Rather it is an episodic history that deals with selected periods movements and individuals throughout the course of American education history from the time of colonial Massachusetts in the 17th century up to present times It is almost entirely devoted to public schools It is a tale that is fraught with friction and controversy even legal challenge Given the nature of the topic and the passion with which it has been and is currently viewed it will ever be thus The Politics of Curriculum **Decision-Making** M. Frances Klein, 1991-01-22 Recent proposals for school reform have involved a significant shift in how curriculum decisions are made particularly at the state level In response to these proposals actions taken by educators have underscored the critical nature of the issue regarding who makes curriculum decisions This book examines the issues involved in how this pivotal concern has been addressed in the past and how it is being handled now Each chapter contributes to a more complete understanding of the complexities involved in the recent trend toward the centralization of curriculum decision making The book will assist both researchers and practitioners in better understanding the issues involved as well as the impact of the movement Limited English Proficiency Students in Wisconsin: Hispanic students (Mexican and Puerto Rican) Constance K.
