

RIZZOLI

CLASSICI

Nel coro di voci dei trattatisti romantici lombardi si leva con spicco eccezionale quella di Alessandro Manzoni che, mentre fa proprie le istanze di coloro che egli chiama scherzosamente i suoi «amici di sofferenza letteraria», ne afferma di sue personalissime, prima fra tutte e campeggiante quell'esigenza di «verità» nell'opera d'arte, che è il perno delle sue battaglie antitradizionalistiche. Questa istanza di verità come di unica vitale fonte di ispirazione per l'artista si esprime con baldanzosa sicurezza e con cauta attenzione nella «Lettre» allo Chauvet e nella «Lettera sul romanticismo»; e inoltre in alcuni passi dell'epistolario coevi a tali scritti; diventa sottile scrupolo sostenuto non senza caudica forzatura nel più tardo e stanco trattato «Del romanzo storico». Sono presentate in questo volume tutte le opere teoriche manzoniane d'argomento letterario: la Prefazione al «Carmaignola», la «Lettre» allo Chauvet, la «Lettera sul romanticismo», il trattato «Del romanzo storico», passi dall'Epistolario e parte degli scritti raccolti sotto i titoli «Materiali estetici» e «Della moralità delle opere tragiche» lasciati dal Manzoni allo stato frammentario.

Subversive Seduction Travis Landry, 2013-01-10 Male male rivalry and female passive choice the two principal tenets of Darwinian sexual selection raise important ethical questions in The Descent of Man and in the decades since about the subjugation of women If female choice is a key component of evolutionary success what impact does the constraint of women's choices have on society The elaborate courtship plots of 19th century Spanish novels with their fixation on suitors and selectors rivalry and seduction were attempts to grapple with the question of female agency in a patriarchal society By reading Darwin through the lens of the Spanish realist novel and vice versa Travis Landry brings new insights to our understanding of both while Darwin's theories have often been seen as biologically deterministic Landry asserts that Darwin's theory of sexual selection was characterized by an open ended dynamic whose oxymoronic emphasis on passive female choice carries the potential for revolutionary change in the status of women

The Formation of a National Audience in Italy, 1750-1890 Gabriella Romani, Jennifer Burns, 2017-06-06 The late eighteenth and the nineteenth centuries witness significant advancement in the production and crucially the consumption of culture in Italy During the long process towards and beyond Italy becoming a nation state in 1861 new modes of writing and performing the novel the self help manual theatrical improvisation develop in response to new practices and technologies of production and distribution Key to the emergence of an inclusive national audience in Italy is however the audience itself A wide and varied body of consumers of culture animated by the notion of an Italian national cultural identity create in this period an increasingly complex demand for different cultural products This body is energized by the wider access to education and to the Italian language brought about by educational reforms by growing urbanization by enhanced social mobility and by transcultural connections across European borders This book investigates this process analyzing the ways in which authors composers publishers performers journalists and editors

engage with the anxieties and aspirations of their diverse audiences Fourteen essays by specialists in the field exploring individual contexts and cases demonstrate how interests related to gender social class cultural background and practices of reading and spectatorship exert determining influence upon the production of culture in this period They describe how women men and children from across the social and regional strata of the emerging nation contribute incrementally but actively to the idea and the growing reality of an Italian national cultural life They show that from newspapers to salon performances from letters to treatises in social science from popular novels to literary criticism from philosophical discussions to opera theaters there is evidence in Italy in this period of unprecedented participation crossing academic and popular cultures in the formation of a national audience in Italy This cultural transformation later produces the mass culture in Italy which underpins the major movements of the twentieth century and which undergoes new challenges and reformulations in the Italy we know today
