Sculpturing With Wax:

Figure Sculpture in Wax and Plaster Richard McDermott Miller, Gloria Bley Miller, 1987-01-01 In this splendidly detailed generously illustrated text the well known American sculptor Richard McDermott Miller introduces the art of modeling the human figure in two media known for their liveliness and spontaneity Recognizing the needs of the beginner as well as the interests of the professional artist the book masterfully puts you quickly in possession of the basic procedures you ll need to get started provides specific details on materials and tools and launches you into actual projects specifically designed to teach you sculptural skills The book first analyzes the human figure and describes the way the sculptor translates the figure into the modeled form finding a personal style working from photographs or memory working from life and capturing gesture proportion and anatomy Mr Miller then describes step by step how to work with wax how to sketch a small figure in wax how to model the figure on a wax armature and the process of hollow wax modeling He follows the same procedure as he introduces working with plaster from mixing it to modeling a hollow torso Many other important topics from mold making techniques to working with models to finding out where and how to buy materials and tools are presented Throughout Mr Miller emphasizes the practice rather than the theory of sculpture emphasizing that apart from the artist s need for personal expression sculpture is a physical task involving the manipulation of materials His concentration on the sculptor s working problems makes this an unusually useful and valuable guide to sculpting the human figure Dover 1987 unabridged slightly updated republication of the edition originally published by Watson Guptill Publications New York 1971

Digital Sculpting with Mudbox Mike de la Flor, Bridgette Mongeon, 2012-10-12 Digital sculpting is the use of tools to push pull smooth grab pinch or otherwise manipulate a digital object as if it were made of a real life substance such as clay Mudbox is the premier sculpting solution for digital artists in that it allows them to naturally and easily sculpt detailed organic characters and models in a way that feels like traditional sculpting This book guides CG professionals through the process of creating amazing digital sculptures using the Mudbox arsenal of ground breaking digital sculpting and 3D painting tools and porting the models into their Maya or Max work Artists will explore tried and true traditional sculpting techniques and learn to apply them to digital sculpting A series of in depth tutorials are included each challenging them with progressively more complex models as they go on Unique to this book are topics specific to fine art sculptors transitioning from traditional sculpting to digital sculpting information found nowhere else for professional sculptors shows them how to successfully integrate digital sculpting into their workflow Associated web site with support files models materials and textures for completing the tutorials in the book

A Survival Guide for Bronze Sculptors Gabe Gabel, 2008-07-31 Gabe Gabel has written the book she wishes she had been able to find when she started her professional career thirty years ago It is really a two part book One part concentrates on the bronze sculpture Art collectors will find the step by step explanation of the casting process extremely educational Artists who wish to learn more about doing a bronze sculpture will not only like that part but the complete how to do it discussion will cover everything they need to know about taking a sculpture all the way through It starts with the placement of the armature and finishes with the decision of the number of the limited edition they choose to cast The information is all there the basic tools the different choices they have in methods and materials and why Gabe prefers the ones she does There are sources and expenses and many ways to save money that she has learned over the years Many options are discussed there are suggestions for solving problems that can occur and attention is paid to safety concerns that artists face that are rarely mentioned Nearly any bronze sculptor is likely to learn some tips that they will appreciate no matter how experienced they are Dont look for how to create your art The reader has to bring his or her own artistic ability to the sculpture table This is not the book to show you how to do a horse sculpture though the book does follow one horse original from armature to bronze This is a book to show you how to bring your own creations to casting ready

sculpture But if you do want to sculpt a horse you will come out with some great ideas to make yours even better For artists who use other media there is a great deal of wonderful information on all aspects of marketing and managing your art business It is a business and Gabe feels that it must be treated as such if an artist wants to make a profit and to make a living selling their work It is all there how to start and utilize a mailing list there is a discussion on show vehicles and various art displays with information on building your own show clothing and manners types of shows galleries your home office and computer Look for letters to Dear Aunt Gabby and her often rather pointed advice Aunt Gabby has heard it all from artists and buyers to show promoters Aunt Gabby is not an art critic she thinks there are enough of those but she can be highly critical of artists and their behaviors In short this is a book by an artist for artists though Gabe does hope that art collectors will find it irresistible too Please visit her personal web site gabegabel.com to enjoy her work in full color see her show schedule and read her newsletters She also welcomes comments through e mail at gabegabel@hotmail.com **New Jersey's**
