Art, Cultural Heritage and the Market Valentina Vadi, Hildegard E. G. S. Schneider, 2014-01-27 In the age of economic globalisation do art and heritage matter Once the domain of elitist practitioners and scholars the governance of cultural heritage and the destiny of iconic artefacts have emerged as the new frontier of international law making headlines and attracting the varied interests of academics and policy makers museum curators and collectors human rights activists and investment lawyers and artists and economists just to mention a few The return of cultural artefacts to their legitimate owners the recovery of underwater cultural heritage and the protection and promotion of artistic expressions are just some of the pressing issues addressed by this book Contemporary intersections between art cultural heritage and the market are complicated by a variety of ethical and legal issues which often describe complex global relations Should works of art be

treated differently from other goods What happens if a work of art currently exhibited in a museum turns out to have originally been looted What is the relevant legal framework What should be done with ancient shipwrecks filled with objects from former colonies Should such objects be kept by the finders Should they be returned to the country of origin This book addresses these different questions while highlighting the complex interplay between legal and ethical issues in the context of cultural governance The approach is mainly legal but interdisciplinary aspects are considered as well Naval Aviation News ,1982 **The Protection of the Underwater Cultural Heritage** Jason Lowther,Joanne Sellick,Mike

Williams,2025-05-19 This third edition provides insights and reflections on developments in UCH law since the last publication in an expanded number of jurisdictions to provide a truly global picture It represents an essential contemporary set of critical analyses on the evolution of the laws adopted by countries seeking to apply appropriate responses to conservation of UCH assets With coverage of issues relating to sovereignty shared heritage and responsible archaeology the contributors all experts in this fascinating area of enduring legal interest offer cogent and contemporary insights and examples of best practice to secure meaningful legal apparatus to protect and conserve UCH The Underwater Eye Margaret Cohen,2022-04-12 In The Underwater Eye Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths creating new imagery of the seas and the underwater realm and expanding the scope of popular imagination Innovating on the most challenging film set on earth filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror tragedy adventure beauty and surrealism entertaining the public and shaping its perception of ocean reality Examining works by filmmakers ranging from J E Williamson inventor of the first undersea film technology in 1914 to Wes Anderson who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool The Underwater Eye traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century Richly illustrated the book explores documentaries by Jacques Cousteau Louis Malle and Hans Hass art films by Man Ray and Jean Vigo and popular movies and television shows such as *20 000 Leagues Under the Sea* *Creature from the Black Lagoon* *Sea Hunt* the Bond films *Jaws* *The Abyss* and *Titanic* In exploring the cultural impact of underwater filmmaking the book also asks compelling questions about the role film plays in engaging the public with the remote ocean a frontline of climate change **Merchant Vessels of the United States ... Ethnic Origins of the Peoples of Northeastern Asia No. 3 Henry N. Michael,Maksim G. Levin,1963-12-15 This is a translation from a Russian work published in 1958 one of the major works of a well known and prolific writer It deals with the origins of the small nations and peoples of central Siberia and northeastern Asia Many guesses have been made about these peoples but most have not been substantiated because of the lack of field work or because the materials on them had not been analysed and published Levin has reviewed the old materials gathered and analysed hitherto unpublished ones and

personally surveyed many of the peoples as a member of the Russian Northeastern Expedition He makes use of all the data of physical anthropology ethnography archaeology and linguistics on the peoples he describes and has thus provided a definitive work on a nearly forgotten segment of mankind inhabiting an extensive territory Volume III in the series Anthropology of the North Translations from Russian Sources sponsored by the Arctic Institute of North America and under the general editorship of H N Michael Temple University Merchant Vessels of the United States... United States. Coast Guard,1976 **Motion Picture Paradise** David Morton,2025-09-16 Highlighting Florida s essential often overlooked role in shaping American film and television Motion Picture Paradise is a sweeping story of filmmaking in Florida featuring the activities of studios and filmmakers across the peninsula by looking at the many iconic films and television shows shot in the state In the early years of the American film industry Florida was a favorite location for pioneer movie makers and David Morton chronicles the state s importance to producers throughout the next 125 years Often overshadowed by the well known entertainment industries of Hollywood and New York Florida has over time had several major film production centers Morton follows the rise and fall of filmmaking destinations across the state including Jacksonville St Augustine Tampa Bay Orlando and Miami as well as pioneering underwater and location based films shot at Florida s unique natural springs He argues that conflicting policies set by Florida politicians have at various times enticed or pushed away movie and television companies a pattern that has hampered serious investment Using a wealth of source materials Morton offers a comprehensive history that demonstrates how films and television shows made in Florida have influenced the state s sense of identity drawing attention to Florida s underacknowledged role as the third coast in American film history Motion Picture Paradise adds new insights into the state s dramatic social and economic transformations during the twentieth century Underwater Cultural Heritage and International Law Sarah Dromgoole,2013-07-25 The first full scale study of the international legal framework governing underwater cultural heritage to be published in nearly two decades Historical Dictionary of the 1950s Bloomsbury Publishing,2000-07-30 Today Americans look back nostalgically at the 1950s an era when television and rock and roll revolutionized popular culture and Vietnam race riots drug abuse and protest movements were still in the future With homes in the suburbs new automobiles and the latest electrical gadgets many Americans believed they were the most prosperous people on earth Yet the era was tainted by the fear of thermonuclear war with the Soviet Union deepening racial tensions and discontent with rigid roles for women and the demands of corporate conformity A sense of rebellion had begun to brew behind the facade It manifested itself in rock and roll the budding civil rights movement and the appearance of a youth culture eventually exploding in the 1960s Providing a comprehensive overview this book includes entries on the prominent people major events issues scandals ideas popular culture and court cases of the decade that gave rise to the tensions of the 1960s *Spanish Yearbook of International Law* Asociación Española de Profesores de Derecho Internacional y Relaciones Internacionales,2005-10 This Yearbook brings together information concerning Spanish legal

practice and a bibliography over the period of one year and makes it available to an international readership It deals with both private and public international law taken in a broad sense to include summary treatment of international organizations of which Spain is a member *The Protection of the Underwater Cultural Heritage* Roberta Garabello,Tullio Scovazzi,2021-10-18 The 2001 UNESCO Convention on the Protection of the Underwater Cultural Heritage represents a major step forward in the field of international law New archaeological rules as well as a comprehensive co operation system among the States concerned are set up by the new Convention Despite the negative attitude assumed by few States at the moment of voting for the text of the Convention this new international instrument is welcome by the great majority of States This volume focuses on the main aspects of the Convention It is divided in two parts to describe the situation before and after the adoption and the forthcoming into force of the Convention In the first part the contradictions resulting from the regime established under the 1982 United Nations Convention on the Law of the Sea are analysed together with the undesirable results of the application of the rules of admiralty law of salvage and law of finds to the underwater cultural heritage In the second part the negotiation process is described both in its general aspects the myths surrounding the draft and in its specific results the drafting of each single provision **TV in the USA** Vincent LoBrutto,2018-01-04 This three volume set is a valuable resource for researching the history of American television An encyclopedic range of information documents how television forever changed the face of media and continues to be a powerful influence on society What are the reasons behind enduring popularity of television genres such as police crime dramas soap operas sitcoms and reality TV What impact has television had on the culture and morality of American life Does television largely emulate and reflect real life and society or vice versa How does television s influence differ from that of other media such as newspapers and magazines radio movies and the Internet These are just a few of the questions explored in the three volume encyclopedia *TV in the USA A History of Icons Idols and Ideas* This expansive set covers television from 1950 to the present day addressing shows of all genres well known programs and short lived series alike broadcast on the traditional and cable networks All three volumes lead off with a keynote essay regarding the technical and historical features of the decade s covered Each entry on a specific show investigates the narrative themes and history of the program provides comprehensive information about when the show started and ended and why and identifies the star players directors producers and other key members of the crew of each television production The set also features essays that explore how a particular program or type of show has influenced or reflected American society and it includes numerous sidebars packed with interesting data related information and additional insights into the subject matter **The Protection of the Underwater Cultural Heritage** Sarah Dromgoole,2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable

laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field
