The Encyclopedia of Fantastic Film R. G. Young, 2000-04 Thirty five years in the making and destined to be the last word in fanta film references This incredible 1 017 page resource provides vital credits on over 9 000 films 1896 1999 of horror fantasy mystery science fiction heavy melodrama and film noir Comprehensive cast lists include directors writers cinematographers and composers Also includes plot synopses critiques re title translation information running times photographs and several cross referenced indexes by artist year song etc Paperback [The Stop-Motion Filmography](#) Neil Pettigrew, 1999-01-01 This is a major McFarland reference work providing in depth analyses of all puppet animation sequences in every film that has featured the process including King Kong and Jason and the Argonauts The focus is on how effective the sequence was and how it was executed In addition to the analysis each entry provides title year of release cast and production credits including producer director screenplay director of photography art director or production designer music stop motion animators armature builders puppet makers stop motion cameramen sequence supervisors and more Ratings of the film and of the effectiveness of its stop motion sequences are also given [A Sea Monster's Tale](#) Colin Speedie, 2021-06-08 There are few marine creatures as spectacular as the Basking Shark At up to 11 metres in length and seven tonnes in weight this colossal plankton feeding fish is one of the largest in the world second only to the whale shark Historically Basking Sharks were a familiar sight in the northern hemisphere off the coasts of Norway Scotland Ireland Canada and the USA for example In an 18th Century world without electricity they became the focus of active hunting for their huge livers containing large amounts of valuable oil primarily used in lamps Catch numbers were small enough to leave populations largely intact but during the 20th Century a new breed of hunter joined the fray some driven as much by a need for adventure as for financial gain With improved equipment and experience they exploited the shark on an industrial scale that drastically reduced numbers leading to localised near extinction in some areas From the 1970 s onward a new generation took to the seas this time with conservation in mind to identify where the shark might still be found in the waters around the British Isles employing new technologies to solve long standing mysteries about the behaviour of this elusive creature Using the best of both old and new research techniques the case was built to justify the species becoming one of the most protected sharks in the oceans Today the Basking Shark is a much loved cornerstone of our natural heritage There are positive signs that the population has stabilised and may even be slowly recovering from the damage of the past proving that timely conservation measures can be effective Join us on a journey amidst wild seas places people and conservation history in the battle to protect this iconic creature a true sea monster s tale **Atomic Bomb Cinema** Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful the atomic bomb has left its indelible mark on film In Atomic Bomb Cinema Jerome F Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema According to Shapiro a Bomb film is never simply an exercise in ideology or paranoia He examines

hundreds of films like *Godzilla*, *Dr Strangelove* and *The Terminator* as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions. Drawing extensively on both English language and Japanese language sources, Shapiro argues that such films not only grapple with our nuclear anxieties but also offer signs of hope that humanity is capable of repairing a damaged and divided world. www.atomicbombcinema.com

Mysterious Creatures George M. Eberhart, 2002-12-17 A comprehensive guide to cryptozoology: the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories. In this fascinating two-volume encyclopedia, author George M. Eberhart provides a comprehensive catalog of nearly 1,000 cryptids—unknown animals usually reported through eyewitness accounts and not yet described by science. Cryptids are the stuff of folklore, hoaxes, and genuine scientific breakthroughs. There are 400 now classified cryptids, once considered either extinct or pure fantasy. The cryptozoologist's job is to strip away the myth, misidentification, and mystery and separate fact from fiction. *Mysterious Creatures* covers everything from dinosaurs and the mammoth to the elephant-killing dinosaur-like animal of central Africa, to searches for the Loch Ness monster, Bigfoot, and other cryptozoological hoaxes. Entries about specific animals include the derivation or meaning of each cryptid's name, its scientific name, variant names, a physical description, behavior description, tracks, habitat, significant sightings, present status, and possible explanations. Illustrations and photographs accompany many entries. The book also includes resources and references for further information.

Hunting Monsters Darren Naish, 2016-01-26 The Loch Ness Monster, The Yeti, Bigfoot—these are just some of the iconic mythical creatures studied by the discipline of cryptozoology. The idea of mysterious and terrifying creatures goes back centuries. They are known by the experts as cryptids. Today, these legendary beings continue to capture our imaginations. Discover the fascinating and often bizarre stories of real-life monsters and the scientists who strove to separate the fact from fiction. In *Hunting Monsters*, Palaeozoological researcher Professor Darren Naish explores the fascinating science behind these elusive monsters, a science known as cryptozoology. Bizarre stories of ancient sea monsters and resurgent dinosaurs are explored in this concise book, taking into account the theories of Belgian zoologist Bernard Heuvelmans, the man responsible for coining the term cryptozoology, as well as modern-day zoologists like John MacKinnon, whose research sheds light into this novel field of work. Whether it is the monsters or the humans behind the story, this is a gripping tale of mystery and legend, sure to enlighten you in the strange realms of cryptozoology.

The Science Fiction Fantasy Film Handbook Alan Frank, 1982-12 This book is a comprehensive and detailed guide to a genre of enduring popular appeal. Several hundred films are covered in entries that provide technical credits and cast lists, a plot synopsis, and a quotation from a contemporary review, complimentary or otherwise. The films are illustrated by over 200 stills. More than 50 biographies of movie personalities, including performers, directors, producers, and writers, are supplied. In addition, the author has written a series of short essays on major themes in science fiction and fantasy films.

Apocalypse of John Sean P. Kealy, 1987-02 The Apocalypse has been one of the most fascinating and most frustrating books of the Bible Interpretations abound yet the mystery at the heart of it continues to intrigue scholars Father Kealy's thoughts on the Apocalypse are provocative stimulating a search for quality in living for values for ultimates for growth in hope

Lucifer, Leviathan, Lilith, and other Mysterious Creatures of the Bible Joel R. Soza, 2017-03-16 The bible is indeed a world of the strange and mysterious when it comes to the variety of creatures that are presented in its texts These often times serve as images of good versus evil or order versus chaos Flat and narrowly myopic literal readings of the bible that at times lacks for imagination and creative insight to the bible's occasional and amazingly metaphorical maze fall far short of what is needed to appreciate the full depth of the biblical world's imagery Therefore this work explores the meaning of the bible's mysterious creatures with an emphasis on three creatures that all appear in the book of the prophet Isaiah Lucifer Isa 14 12 Leviathan Isa 27 1 and Lilith Isa 34 14 These mysterious creatures of the bible live on and can both inspire and cause fear It is a marvelous mixed world of biblical metaphor and realism to be found in the likes of Lucifer Leviathan Lilith and the rest of the mysterious creatures that make a biblical appearance

The Coloniality of Animal Monstrous Othering in Children's Books, Films, and Toys Donna Varga, 2024-08-19 The Coloniality of Animal Monstrous Othering in Children's Books Films and Toys examines how the portrayal of animals as physically distorted behaviorally depraved and intellectually defective serves to justify their debasement violation and destruction in materials directed toward young consumers The author argues that this animal monstrous Othering arises from the Eurocentric belief in humans natural superiority over animals and the right to categorize animals in accordance with a scale of worthiness that parallels the subjugation of racialized persons The chapters examine a variety of canonical figures like the dissolute wolf of Red Riding Hood stories and the disfigured titular character of the Wonky Donkey picture book alongside non canonical animals including reprobate pigs degenerate sharks self centered flamingos and wicked piranhas To counter this animal debasement Varga juxtaposes these readings with an examination of materials that articulate harmonious animal human interrelationships without dependence on styles of anthropomorphism that diminish animality
