Sea Of Sand:

Facing the Sea of Sand Barry Cunliffe, 2023-04-15 Northern Africa is dominated by the Sahara Desert stretching across the continent from the Atlantic Ocean to the Red Sea This book is about the people who lived around the edges of the Desert and the different ways in which they responded to its challenges establishing networks of communication across its expanse But the Sahara has not always been a desert From about 9000 BC the region began to enjoy a warm humid period allowing vegetation to flourish and wild animals to move in Humans soon followed practising pastoral economies but with the onset of harsher conditions once more around 3000 BC the desert reclaimed its own Since then fluctuations in climate have continued to affect the lives of people living around the desert fringes The communities occupying the North African Coast and in the Nile Valley have come under the influence of the states dominating the Near East and the Mediterranean but those living in in the Sahel to the south of the desert have developed their own distinctive cultures The book tells the story of the growing links between the two worlds showing that Africa played a crucial part in the development of the Old World before it was drawn into the story of the New World Welcome to the Sea of Sand Jane Yolen, 2014-05-30 Only Jane Yolen could write such a wonderful and poetic tribute to the beauties of the desert where there is constant amazement to be found Regan's paintings are inviting and breathtaking American Bookseller

By the Sea of Sand Megan Hart, 2019-11-12 Their love is a memory too dangerous to recall Life is not easy by the Sea of Sand The remote outpost and its lighthouse were never meant to serve as a place for wounded soldiers to recover but that's what it has become Teila has lived in the lighthouse for her entire life and now she also takes care of the men and women who gave their sanity fighting the Wirthera's hive mind Captain Kason Reed was willing to give his life for the Sheirran Defense Forces but now he can't remember anything except bits and pieces of the war When his attraction to his caregiver Teila causes him to make advances toward her she becomes the aggressor urging him with her body to explore the memories of his past memories that all seem to draw him back to Teila Those returned by the Wirthera never come back whole Their bodies are flooded with nanobots designed to trigger homicidal rage when the soldiers remember what happened to them No matter how much Teila wants her new patient to remember her and the life they shared before she can't remind him If she does he might kill them all Sea of Sand Michael M.

Geary, 2016-03-31 Sculpted into graceful contours by countless centuries of wind and water the Great Sand Dunes sprawl along the eastern fringes of the vast San Luis Valley of south central Colorado Covering an area of nearly thirty square miles they are the tallest aeolian or wind produced dunes in North America towering 750 feet above the valley floor With the addition of the enormous Baca Ranch and other adjacent lands the dunes originally designated as a National Monument in 1932 attained official National Park status in 2004 In *Sea of Sand* Michael M Geary guides readers on a historical journey through this unique ecosystem which includes an array of natural and cultural wonders from the main dunefield and verdant wetlands to the summits of the Sangre de Cristo Mountains Described by explorer Zebulon Pike as a sea in a storm and by

frontier photographer William Henry Jackson as a curious and very singular phase of nature's freak the Great Sand Dunes are a nexus of more than 10 000 years of human history from Paleolithic big game hunters to nomadic Native Americans from Spanish conquistadores and transcontinental explorers to hard rock miners and modern day tourists in motor homes Like these successive waves of visitors Sea of Sand follows the water analyzing its critical role in the settlement and development of the region Geary also describes the profound impact that waves of human use and settlement have had on the land which ultimately inspired the early grassroots efforts by San Luis Valley citizens to protect the dunes from further exploitation He examines as well the more recent legislative effort led by an unprecedented coalition of local state and federal agencies and organizations including The Nature Conservancy and the National Park Service to secure the Great Sand Dunes national park designation Amply illustrated Sea of Sand is the definitive history of the natural cultural and political forces that helped shape this incomparable landscape

Sea of Darkness Brian Hicks, 2015-03-03 On a dark night in February of 1864 the H L Hunley the first submarine to sink an enemy ship in combat torpedoed the Union blockade ship USS Housatonic a feat that would not be repeated for another 50 years But fate was not kind to the Hunley that night as it sank with all of its crew on board before it could return to shore Considered by many to be the Civil War's greatest mystery the Hunley's demise and its resting place have been a topic of discussion for historians and Civil War buffs alike for more than a hundred years Adding still more to the intrigue the vessel was discovered in 1995 by a dive team led by famed novelist and shipwreck hunter Clive Cussler sparking an underwater investigation that resulted in the raising of the Hunley on August 8 2000 Since that time the extensive research and restorative efforts underway have unraveled the incredible secrets that were locked within the submarine at the bottom of the Atlantic Ocean Join Civil War expert Brian Hicks as Sea of Darkness recounts the most historically accurate narrative of the sinking and eventual recovery ever written Hicks has been given unprecedented access to all the main characters involved in the discovery raising and restoration of the Hunley Complete with a foreword and additional commentary by Clive Cussler Sea of Darkness offers new never before published evidence on the cause of the Hunley's sinking providing readers a tantalizing behind the scenes look inside the historic submarine
