II the world's navies envisioned the submarine as a tool to hunt and kill cruisers and capital ships aircraft carriers and battleships Instead they became best known for their abilities as commerce raiders Yet hunting capital ships remained an important auxiliary role for the US submarine force in World War II Featuring specially commissioned artwork and mapping alongside carefully chosen archive illustrations this absorbing study focuses on five revealing battles between US submarines and Japanese aircraft carriers during 1942 44 At first a combination of factors bad torpedoes poor US tactics and plain bad luck foiled every US submarine attack on a Japanese capital ship in 1942 and 1943 But over the space of six months in 1944 from June through November of that year US submarines sank three of Japan's largest aircraft carriers as well as a battleship Thereafter Japanese capital ships clung to port or sheltered waters beyond the reach of submarines In this book Mark Lardas explains how the technologies and procedures employed by both sides helped to determine the victor in five revealing clashes from the battle of Midway in June 1942 to the sinking of Shinano the largest warship sunk by a submarine in November 1944 Fighting for Freedom ,1990 World War II Spencer C. Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war s direction and outcome Readers will understand the motivations behind Japan's decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war s outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research Sea Assault Joseph Enright, 2000-10-15 During the Pacific leg of World War II the U S Navy struck an astounding blow to the Japanese a defeat which would become one of the greatest David and Goliath stories in the history of warfare Japan's Shinano was a mammoth 72 000 ton aircraft carrier equipped with a huge arsenal of guns and carrying some 4 000 men Yet a small U S submarine the Archer Fish less than a thirtieth the size of Shinano and carrying just 82 men managed to sink the gargantuan vessel into the embattled Pacific with just four strategically placed torpedoes Here vividly told by the Commander of the Archer Fish is the incredible

true story of this crushing victory and a fascinating account of heroism history and warfare **Air University Library Index to Military Periodicals** .1987 USS Pampanito Gregory F Michno, 2016-01-12 Most World War II submarine stories are glorifications of war written by submarine captains about their own boats But the USS Pampanito was not a typical submarine The sub and its crew caused plenty of destruction but they found the pinnacle of their honor and fame in a dramatic sea rescue Gregory F Michno relates the experiences of the crewmen both enlisted men and officers who served on the USS Pampanito The Pampanito story begins with the boat s construction in 1943 continues through its six combat missions and concludes with its decommissioning after the war in 1945 The heart of the book is the September 12 1944 attack on a Japanese convoy carrying English and Australian POWs from the Burma Siam Railway of Bridge on the River Kwai fame to prison camps in Japan The Pampanito helped sink two of the prison ships unwittingly killing hundreds of Allied soldiers but then returned to rescue the survivors The crew picked a record seventy three men from the sea **World War** II at Sea Myron J.
