Boost Your STEAM Program with Great Literature and Activities Liz Knowles, Martha Smith, 2018-06-01 You've created a STEAM program in your library but how do you work literacy into the curriculum? With this collection of resource recommendations, direction for program development and activities, you'll have students reading proficiently in no time. Many schools and libraries are implementing STEAM programs in the school library makerspace to promote problem solving by allowing students to create their own solutions to a problem through trial and error. In order to enhance literacy development in the STEAM program, however, they need resources for integrating literature into the curriculum. In this collection of resources for doing just that, veteran education professionals and practiced coauthors Liz Knowles and Martha Smith bring readers over eight hundred recommended and annotated books and web resources selected based on research on successfully integrating STEAM and literacy programs and organized by the five STEAM areas. Titles are complemented by discussion questions and problem solving activities that will aid educators in both adding and using the best literature to their STEAM programs for encouraging learning. In addition to promoting literacy, these resources will help to develop creativity, lateral thinking skills, and confidence in students.

Inspiring Primary Curriculum Design James Biddulph, Julia Flutter, 2020-06-10 This new book from the only university-run primary school in the UK helps schools design their own curricula by providing access to the latest education research along with supporting ideas and questions for how this can be applied successfully. Co-written by practising teachers and research academics, it combines practitioner expertise with the latest world-class academic research. Each chapter includes examples of how schools approached designing their own curricula and shows how an evidence-informed approach can lead to new ideas that are bold, innovative, and imaginative. Packed with innovative ideas and practical suggestions, this book highlights the importance of using research evidence to develop teachers' practice in the realities of their own classrooms and schools. It is a key read for teachers, school leaders, teaching assistants, and student teachers, especially those who recognise the important role of research in developing excellence in their practice.

Surfing Tropical Beats Sam Bleakley, J. S. Callahan, 2012 Sam Bleakley and the surf EXPLORE team take us on a roller coaster ride through Gabon, India, Vietnam, Algeria, China, and Haiti, drumming up a tropical beat. Combining Deep Travel, John Callahan's incredible photography, and Sam's performance writing, they capture the spirit of these turbulent coastscapes: blood racing, running on salt water fuel. The wide belt around the Equator, the tropics, has become an alluring path for travel, but a region often steeped in war and environmental disasters. Sam and surf EXPLORE go off the regular route, carving a niche, collaborating with locals, documenting the occasion poetically and with precision. Where waves transform from green glass to white foam, the surfboard is the frozen double of that transition, a rainbow bridge that allows you to step in the blink of an eye from inertia to adrenaline-fuelled ecstasy to the fear of the water wrestling hold down. The paradoxical red-hot and cool blue of surfing and the often icy logic of preparation for challenging travel form a matrix from which springs a distinctive kind of writing as performance. By turns, surf EXPLORE gathers their wits at the cross
