of God's animals that live beneath the sea. It is with this in mind that I decided to share my undersea experience with all of God's children. It is my hope that this book can be used by Christian parents to interact with their children in a way that will expose God's undersea world and at the same time teach some Christian values that will have enduring ramifications. By asking the questions on each page we as parents can stimulate our children to think about God and His world. We can communicate with our children and at the same time share some interesting life forms with them. It has been said that a picture is worth a thousand words. Each picture within this book is an authentic sea animal. I took all of the pictures of these sea animals as they appear in their natural environment. Each picture represents an extended effort as a scuba diver and underwater photographer. Each animal was handled with loving care and was not removed from its environment. Look at each picture and use your imagination to stimulate your child's curiosity. This book is intended to be used as a guide to stimulate your child's interest in His world as a tool for you to listen to what your child has to say. Please read it to your child and use the information provided with each picture to answer your child's questions. As you read this book may you enjoy God's undersea world and remember you are loved by Him always and forever.

**Animals, Gods and Humans** Ingvild Saelid Gilhus, 2006-09-27. Consulting a wide range of key texts and source material, *Animals, Gods and Humans* covers 800 years and provides a detailed analysis of early Christian attitudes to and the position of animals in Greek and Roman life and thought. Both the pagan and Christian conceptions of animals are rich and multilayered, and Ingvild Saelid Gilhus expertly examines the dominant themes and developments in the conception of animals. Including study of biographies of figures such as Apollonius of Tyana, natural history, the New Testament, Gnostic texts, the church fathers, and from pagan and Christian criticism of animal sacrifice to the acts of martyrs, the source material and detailed analysis included in this volume make it a veritable feast of information for all classicists.
