**A Theory of the Tache in Nineteenth-Century Painting** ?stein Sj?ad, 2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet's and the Impressionists rejection of academic finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist's

body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer distinctions and observations than have been available thus far within the Peircean tradition The sign crossing theory opens onto the whole terrain of interaction between visual art art criticism literature philosophy and psychology      **Cyclopedia of Painters and Paintings** John Denison Champlin, Charles Callahan Perkins, 1887

Alpers, 2007-01-01 Now available in paperback A major art historian reflects on a great tradition of European painting The Vexations of Art is an engrossing passionate attempt to re engage with painting as a mode of thought at a time when it is not clear in what form the resource of painting for surely painting has been a singular resource of the greater European culture will continue Jackie Wullschlager Financial Times A fascinating book that will surely generate discussion for some time to come Mindy Nancarrow Renaissance Quarterly      Voyages of the Self Barbara Novak, 2009-05-15 Barbara Novak is one of America's premier art historians the author of the seminal books American Painting of the Nineteenth Century and Nature and Culture the latter of which was named one of the Ten Best Books of the Year by The New York Times and was nominated for a National Book Critics Circle Award Now with Voyages of the Self this esteemed critic completes the trilogy begun with the two earlier works offering once again an exhilarating exploration of American art and culture In this book Novak explores several inspired pairings of key writers and painters drawing insightful parallels between such masters as John Singleton Copley and Jonathan Edwards Winslow Homer and William James Frederic Edwin Church and Walt Whitman and Jackson Pollock and Charles Olson Through these and other groupings Novak tracks the varied meanings of the self in America in which the most salient characteristics of each artist or writer is shown to draw from and in turn influence the larger map of American life Two major threads weaving through the book are the American preoccupation with the object and our

continuing return to pragmatism Novak notes for instance how Copley s art mirrors the puritan denial of self found in Jonathan Edwards and how as colonial scientists they share an interest in sensation and observation She sees Winslow Homer and William James as practitioners of a pragmatic self grounded in an immediate experience that looks for concrete results Through such fruitful comparisons whether between Copley and Edwards or Lane and Emerson or Ryder and Dickinson Novak sheds unmatched light on our nation s artistic heritage Wonderfully illustrated with dozens of black and white pictures and sixteen full color plates here is a stunning work that yields a wealth of insight into American art and culture and concludes Novak s landmark trilogy
