Sea Power In Its Relations To The War Of 1812:

Sea Power in its Relations to the War of 1812 Alfred Thayer Mahan, 1968 Sea Power in its Relations to the War of 1812 II A. T. Mahan, 2016-08-16 That much of Great Britain's action was unjustifiable and at times even monstrous regarded in itself alone must be admitted but we shall ill comprehend the necessity of preparation for war if we neglect to note the pressure of emergency of deadly peril upon a state or if we fail to recognize that traditional habits of thought constitute with nations as with individuals a compulsive moral force which an opponent can control only by the display of adequate physical power Such to the British people was the conviction of their right and need to compel the service of their native seamen wherever found on the high seas The conclusion of the writer is that at a very early stage of the French Revolutionary Wars the United States should have obeyed Washington's warnings to prepare for war and to build a navy and that thus prepared instead of placing reliance upon a system of commercial restrictions war should have been declared not later than 1807 when the news of Jena and of Great Britain's refusal to relinquish her practice of impressing from American ships became known almost coincidentally But this conclusion is perfectly compatible with a recognition of the desperate character of the strife that Great Britain was waging that she could not disengage herself from it Napoleon being what he was and that the methods which she pursued did cause the Emperor's downfall and her own deliverance although they were invasions of just rights to which the United States should not have submitted **Sea Power in its Relations to the War of 1812. Sea Power in its Relation to the War of 1812 Volume 1 A. T. Mahan, 2019-09-15 Excerpt The interest of the War of 1812 to Americans has commonly been felt to lie in the brilliant evidence of high professional tone and efficiency reached by their navy as shown by the single ship actions and by the two decisive victories achieved by little squadrons upon the lakes Without in the least overlooking the permanent value of such examples and such traditions to the nation and to the military service which they illustrate it nevertheless appears to the writer that the effect may be even harmful to the people at large if it be permitted to conceal the deeply mortifying condition to which the country was reduced by parsimony in preparation or

to obscure the lessons thence to be drawn for practical application now It is perhaps useless to quarrel with the tendency of mankind to turn its eyes from disagreeable subjects and to dwell complacently upon those which minister to self content We mostly read the newspapers in which we find our views reflected and dispense ourselves easily with the less pleasing occupation of seeing them roughly disputed but a writer on a subject of national importance may not thus exempt himself from the unpleasant features of his task *Sea Power in Its Relations to the War of 1812* A. Sea Power in Its Relations to the War of 1812 Thayer Alfred Mahan,2009-01-01 **Sea Power in its Relations to the War of 1812** A. T.
