Sea Room An Island Life:

Sea Room Adam Nicolson, 2007-08-14 In 1937 Adam Nicolson's father answered a newspaper ad Uninhabited islands for sale Outer Hebrides 600 acres Puffins and seals Apply and thus found the Shiant Islands With a name meaning holy or enchanted islands the Shiant Islands for millennia were a haven for those seeking solitude but their rich sometimes violent history of human habitation includes much more When he was twenty one Nicolson inherited this almost indescribably beautiful property a landscape soaked in centuries old tales of restless ghosts and Bronze Age gold that cradles the heritage of a once vibrant world of farmers and fishermen In *Sea Room* Nicolson describes and relives his love affair with the three tiny islands and their strange and colorful history in passionate keenly precise prose sharing with us the greatest gift an island bestows on its inhabitants a deep engagement with the natural world

California's Channel Islands Frederic Caire Chiles, 2015-01-20 Prehistoric foragers conquistadors missionaries adventurers hunters and rugged agriculturalists parade across the histories of these little known islands on the horizon of twenty first century Southern California This chain of eight islands is home to a biodiversity unrivaled anywhere on Earth In addition the Channel Islands reveal the complex geology and the natural and human history of this part of the world from the first human probing of the continent we now call North America to modern day ranchers vineyardists yachtsmen and backpackers Not far below the largely undisturbed surface of these islands are the traces of a California that flourished before historical time vestiges of a complex forager culture originating with the first humans to cross the Bering Land Bridge and spread down the Pacific coast This culture came to an end a mere 450 years ago with the arrival of Spanish conquistadors and missionaries whose practices effectively depopulated the archipelago The largely empty islands in turn attracted Anglo American agriculturalists including Frederic Caire Chiles's own ancestors who battled the elements to build empires based on cattle sheep wine and wool Today adventure tourism is the heart of the islands economy with the late twentieth century formation of Channel Islands National Park which opened five of the islands to the general public For visitors and armchair travelers alike this book weaves the strands of natural history island ecology and human endeavor to tell the Channel Islands full story

Why Homer Matters Adam Nicolson, 2014-11-18 Adam Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood *The New Yorker* Adam Nicolson sees the *Iliad* and the *Odyssey* as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time *Why Homer Matters* is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims

to bind the wounds that time inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are

Domestic fortress Rowland Atkinson, Sarah Blandy, 2016-11-04 Today's home is a kind of fortress that tells us as much about our need for privacy as it does about ensuring our security Fortress homes gated communities and elaborate defensive systems have become everyday features of urban life highlighting the depth of fear as well as the desire for prestige and social display and the ideological strength of home ownership This book offers a fresh analysis of our homes our demands for security and anxieties about invasion loss and finding seclusion in a worrying and divided world Using a rich range of sources from cutting edge research to media accounts the book considers the fantasies and realities of dangers to the contemporary home and its inhabitants and details the extreme measures now used in the pursuit of total safety

A Poetics of Education John I'Anson, Alison Jasper, 2025-03-20 At a time when education is routinely and problematically translated into the discourse of learning and teaching to serve a series of instrumental imperatives the question of what we mean by education is raised with renewed urgency This book looks beyond present horizons to imagine education anew It considers ways of theorising education that acknowledge the complexity of its genealogy empirical practice and imbrication within regimes of governance in the light of education's orientation to both the already actualised and the new and unprecedented A specifically educational milieu is characterised by the kinds of existential movements and negotiations to which this gives rise together with a language and grammar for their articulation that points to their urgency and significance A poetics of education an edupoetics is thus a considered response to this exigency Through engaging a variety of felicitous tropes that include the sea and its navigation Serres opacity Glissant desire A r precarity Butler gift Manning and chiasma Merleau

Ponty it becomes possible to articulate an educational image of thinking that in welcoming the new and unforeseen promotes a radical hospitality to difference The chapters engage a variety of writers to explore how an edupoetics might intersect with a series of specific educational scenes and concerns that include for example the qualities of good research that opens to the other than human the complexities of doctoral supervision the pedagogics of gender and the gift of neurodiversity This book articulates an alternative educational imaginary an edupoetics that gestures towards collectivities gathered around matters of intense concern It will be relevant to scholars in the humanities and social sciences interested in educational theory and the philosophy of education

The Landscapes of W. H. Auden's Interwar Poetry Ladislav Vít, 2021-12-14 This is the first book length study foregrounding Auden's sense of place as a means for enhancing our grasp of this crucial twentieth century poet Proposing that Auden had a remarkable spatial sensibility this book concentrates on his treatment of his homeland England as well as the North Pennines and Iceland both of which served as his good places holy grounds and sources of topophilic sentiment The readings draw on the scholarship of humanistic geography tracing patterns of mental constructs which emerge from spatial experience In a scholarly but engaging way this book argues that focusing on Auden's poetics of place as it emerged and evolved can be instrumental to our understanding of this influential poet not only in relation to his epoch but also to the Anglophone poetic tradition Precisely because of his stature these elaborations on Auden's preoccupation with places escapism borders and local identity promise to enrich our understanding of the cultural and intellectual climate of the interwar period when established notions of local places and cultures were beginning to be contested by internationalisation This study will be of interest to both academics and students in the field of Anglophone literary studies while also appealing to those attracted to Auden's poetry interwar culture and the literary representation of space

Bhd,2017-11-27 Nine nautical miles off the east coast of peninsular Malaysia strung along the middle arc of the Seribu Archipelago the roving eye will spot a clutch of sun washed islands Narrow the lens a little to focus on the middle island Pulau Babi Tengah or Middle Pig Island in the Malay language named after the wild pigs that used to roam its lands Set in the protected Johor Marine Park the island better known by its shortened name of Pulau Tengah is three kilometres in circumference with an elevation of 150m at its highest point Though just sixteen kilometres from the fishing town of Mersing Johor and 140km from Singapore the island ticks every fantasy of an uninhabited paradise island The beaches that encircle most of the island attract Green and Hawksbill turtles that land to lay their eggs from March to October The translucent waters that surround the island are home to both coral reefs and meadows of sea grass which in themselves house rich marine life Batu Batu sits on the southern end of the island and was built in the traditional Malaysian kampung or village

style to blend into the natural landscape of the island The resort aims to tread lightly in order to preserve the beauty of the island and its natural surroundings To this end Batu Batu has set up a variety of projects and funded a number of studies over the past years including an ongoing collaboration with Malaysia s National Marine Parks Department and the Department of Fisheries for the conservation of turtles This book sets out to document and share a broad overview of the natural history of Pulau Tengah It is a dedication to the work of Batu Batu s staff and the various experts and nature lovers who have visited the island and contributed a little to its preservation Related Link s
