Raising Parents Patricia M. Crittenden, 2013-04-03 This book provides a systematic account of parental behaviour and the means of identifying and addressing inadequate parenting. It is intended for professionals who work with children or adults who were harmed as children, and its central concern is with parents who endanger their children or whose children may endanger themselves or others. Understanding and helping troubled parents to become secure and balanced people is of crucial importance for the parents themselves, for their children, and for society at large. This book is a guide to understanding parents as people who have children, as opposed to seeing them as existing solely in terms of their ability to fulfill their children's needs. The book shares equally a respect for theory, empirical science, and social values and applications. It aims to provide a springboard for new lines of research, e.g. around the role of danger in eliciting inadequate parental behavior and the interdependency of parent and child behaviour, as well as a guide for clinicians and professionals who must protect both disturbed individuals and the public to understand their clients/patients better. Both parents and children. **Raising Parents** will be essential reading for professionals and practitioners in the field, including psychologists, psychotherapists, psychiatrists, and social workers, as well as those taking courses in attachment and psychopathology, developmental psychology, clinical psychology, and behavioural courses in psychiatry. **Irish Masculinity on Screen** Joseph Paul Moser, 2013-07-08 Examining images of gender and violence, this book analyzes selected works of three influential artists of the Irish cinema: Ford, Sheridan, and Greengrass, whose careers taken together span the period from 1939 to the present. These three explore fundamental questions about identity, patriarchy, and violence within Irish and Irish American contexts, and in the process, upset

conventional notions of masculine authority Furthermore Ford's later films interestingly depart from the egalitarian ideals that distinguish his pre World War II films
