Roving Mariners Lynette Russell,2012-11-01 For most Australian Aboriginal people the impact of colonialism was blunt dispossession dislocation disease murder and missionization Yet there is another story of Australian

history that has remained untold a story of enterprise and entrepreneurship of Aboriginal people seizing the opportunity to profit from life at sea as whalers and sealers In some cases participation was voluntary in others it was more invidious and involved kidnapping and trade in women In many cases the individuals maintained and exercised a degree of personal autonomy and agency within their new circumstances This book explores some of their lives and adventures by analyzing archival records of maritime industry captains logs ships records and the journals of the sailors themselves among other artifacts Much of what is known about this period comes from the writings of Herman Melville and in this book Melville's whaling novels act as a prism through which relations aboard ships are understood Drawing on both history and literature *Roving Mariners* provides a comprehensive history of Australian Aboriginal whaling and sealing

Reshaping Planning with Culture Greg Young, 2016-04-08 Planning is described as being increasingly sidelined by the impacts of neo liberal restructuring At the same time culture is nowadays seen as the world's key intellectual resource possessing new creative weight in sociological economic and environmental terms This book argues that in the light of this cultural turn there is the opportunity to re position planning and proposes an original practical and robust system of culturisation Culturisation is defined as the ethical critical and reflexive integration of culture into planning and potentially other areas such as public administration corporate strategy and development thinking Cultural theory planning theory global governance policy and recent innovative culturised practices are all explored to this end The new theoretical and practical approach put forward shows how deeper richer and more relevant ideas about culture can be utilized in planning and is illustrated with international examples and two major case studies detailing new vistas for a refurbished planning
