Booklist Starred Review. A behind-the-scenes look at the life and music of legendary Hollywood composer Elmer Bernstein, the only person to be nominated for an Academy Award in every decade from the 1950s to the 2000s. Over a career spanning 54 years, he composed landmark scores in every available genre: epics, jazz, westerns, dramas and comedies, and his credits read like a list of the greatest films of his time: *The Ten Commandments*, *The Magnificent Seven*, *To Kill a Mockingbird*, *The Man With the Golden Arm*, *The Great Escape*, *Ghostbusters* to name just a few. This biography, written by Elmer's son Peter, interweaves exclusive interviews, oral histories, not otherwise available estate archival materials and personal experiences. Elmer Bernstein lived a colorful life; he was a first-generation American, he was blacklisted, and he was a fearless advocate for film music, not afraid to take on anyone in pages of trade papers. The book looks at many of his landmark scores in depth, collaborations with various producers and directors, and his success in navigating the rough and tumble of Hollywood. There is much to his story: a cycle of struggle, success, frustration, failure, and reinvention repeated many times over his career, which connected the Old Hollywood with the modern era. *Leo Laporte's 2005 Technology Almanac* Leo Laporte, Michael Miller, 2004 With a year's worth of anecdotes, tips, factoids and musings about personal computers, this popular almanac provides essays and daily tips on Windows, Macs, AOL, the Web, viruses, computer maintenance, buying privacy, and terminology. New York Times Bestselling author of *Fish Out of Water* *A Search for the Meaning of Life* and *Host of Socrates in the City* In 2018 in the midst of a contentious Supreme Court confirmation battle Christine Blasey Ford named Mark Judge as a witness to her alleged attempted rape over thirty years earlier at the hands of a teenaged Brett Kavanaugh Overnight the unassuming writer critic videographer and recovering alcoholic was unwillingly thrust into the national media spotlight Reporters combed through Judge s writings pored over his high school yearbook hounded him with emails and phone calls and invaded the privacy of his relatives friends and former girlfriends He was mauled in the press denounced in the Senate received threatening late night calls became the target of a classic honey trap and was even called out by Matt Damon on *Saturday Night Live* As the lunacy reached its crescendo Judge began to fear for his sanity and even his life A year later still traumatized by this Kafkaesque experience Judge found himself washing dishes in a Maryland restaurant trying to piece his shattered life back together Even at the time it was clear that Judge himself was not the target of this campaign of vilification Instead it was an attempt to use his spotty record as a teenage alcoholic and later a political and cultural conservative to destroy Brett Kavanaugh by proxy The actors in this malicious and cynical plot were an informal cabal of partisan reporters Democrats in Congress and shadowy opposition researchers a *Devil s Triangle* whom Judge aptly compares to the Stasi the dreaded East German secret police who terrorized citizens during the Cold War Now in a frank confessional and deeply moving book that stands comparison to Arthur Koestler s Cold War classic *Darkness at Noon* Judge rips the mask from the new American Stasi Using pop culture politics the story of his friendship with Kavanaugh and the fun wild and misunderstood 1980s Judge celebrates sex art and freedom while issuing a timely warning to the rest of us about our own endangered freedoms

Video Movie Gd-1987 Mick Martin,1986-12-12 **The Art of Return** James Meyer,2019-09-11 More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China s communist government inaugurated a new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism

and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s including reenactments of civil rights antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia
