Search For Peace The Story Of The United Nations:

Search for Peace William Jay Jacobs, 1994 An overview of the United Nations its formation its successes and failures as international peacekeeper the prospects for the future The Secret Search for Peace in Vietnam David Kraslow, Stuart H. Loory, 1968 **Inside the UN Security Council** Jess Giffkins, 2023-11-05 UN Security Council decisions impact billions of people and yet its formal rules are minimal and tell us little about how decisions are made Instead informal and often unwritten practices form the basis of negotiations Inside the UN Security Council analyses informal practices within Security Council decision making both in general and focused on the case of Darfur in the west of Sudan to pull back the curtain on decision making Security Council negotiations on Darfur are analyzed in depth across issue areas of agenda setting sanctions referral to the International Criminal Court and peacekeeping One way of understanding these informal practices is via the lens of legitimation This is a useful approach because it brings to the fore the ways in which states seek legitimacy for themselves and for Security Council decisions as part of the negotiation process Inside the UN Security Council introduces and develops the concept of legitimation practices to analyse the UN Security Council s decision making Legitimation practices shape the process and outcome of negotiations in two different ways Internal legitimation practices which relate to the legitimation of Security Council decisions such as prioritizing unanimity constrain and enable the text of resolutions External legitimation practices such as doing something even when it is known that it cannot be implemented relate to the legitimation of actors in the negotiations and shape whether decisions can be reached at all Foregrounding legitimation practices sheds light on seemingly contradictory moments within Security Council decision making such as the United States enabling the referral of the situation in Darfur to the International Criminal Court despite its longstanding objections to the court and the capacity to veto the decision The book draws on a wide range of primary and secondary sources including original interviews with key decision makers to show that legitimation practices are an integral aspect of Security Council negotiations **Historical Dictionary of the United Nations** Jacques Fomerand, 2017-12-29 At a time of profound transformations in international relations the second edition of Historical Dictionary of the United Nations maps out the continuing and deepening role and relevance of the United Nations in the maintenance of peace and the promotion of development and human rights Focusing on the past two decades developments this book contributes to a reasoned and fuller understanding of an organization which remains the cornerstone of a changing world fraught with challenges which simply cannot be addressed either unilaterally or bilaterally This second edition of Historical Dictionary of the United Nations contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on its basic organizations subsidiary bodies related specialized and other agencies and nongovernmental actors as well as outstanding figures in its history This book is an excellent resource for students researchers and anyone wanting to know more about the United Nations The Search for Peace in the Middle East Samuel Merlin, 1969 *The*

Challenging the United Nations Peace and Security Agenda in Africa Dawn Nagar, 2021-09-29 This book concerns the United Nations peacemaking peacekeeping peace building and post conflict reconstruction efforts in Africa from 1960 to 2021 Succinctly discussed are historic and contemporary peace security and economic engagements within 18 countries spanning eight African regions the Great Lakes the Economic Community of Central African States East Africa the Horn of Africa North Africa the Sahel Region West Africa and Southern Africa The book develops a neo realist and imperialist critique that discusses how resource rich conflict ridden states have become easy targets for capitalists terrorists and transnational crime aligned to geostrategic parochial interests Critically argued is that endogenous economic growth factors if applied effectively can achieve both peace and security and meet the Global Sustainable Development Goals Such efforts require constructive engagement with the five permanent members of the UN Security Council China France Russia the UK and the US However the book contends that the cornerstone of multilateral engagement involves Africa's 55 states and the African Union's three major pillars the Peace and Security Council the African Governance Architecture and the Post Conflict Reconstruction Development Centre which have the ability to move resource rich conflict ridden states out of transnational crime and poverty This book offers wide ranging analyses of contemporary African diplomacy and a compelling critique of UN peacekeeping efforts in Africa which resonates to scholars of international relations peace and conflict studies and African politics

The Oxford Handbook of the Responsibility to Protect Alex J. Bellamy, Timothy Dunne, 2016 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

A History of False Hope Lori Allen, 2020-12-15 This book offers a provocative retelling of Palestinian political history through an examination of the international commissions that have investigated political violence and human rights violations More than twenty commissions have been convened over the last century yet no significant change has resulted from these inquiries The findings of the very first the 1919 King Crane Commission were suppressed The Mitchell Committee convened in the heat of the Second Intifada urged Palestinians to listen more sympathetically to the feelings of their occupiers And factfinders returning from a shell shocked Gaza Strip in 2008 registered their horror at the scale of the destruction but Gazans have continued to live under a crippling blockade Drawing on debates in the press previously unexamined UN reports historical archives and ethnographic research Lori Allen explores six key investigative commissions over the last century She highlights how Palestinians persistent demands for independence have been routinely translated into the numb language of reports and resolutions These commissions Allen argues operating as technologies of liberal global governance yield no justice only the oppressive status quo A History of False Hope issues a

biting critique of the captivating allure and cold impotence of international law *Protecting the Global Civilian from Violence* Timo Kivimäki, 2021-05-10 This book reveals why the UN is more successful than unilateral great powers in protecting civilians from violence and focuses on the discourse development and consequences of UN peacekeeping. Analysing statistics of state fragility and fatalities of violence it reveals that the UN has managed to save tens of thousands of lives with its peacekeeping a surprising statistic given the media consensus about the UN's powerlessness and inefficiency. Using computer assisted discourse analysis of resolutions from the UN Security Council 1993-2019 the book offers data that describe the character and development of UN approach to the protection of civilians from violence. It then links the data to the statistics of conflict fatalities and state fragility to reveal by means of qualitative and quantitative analysis when, where, how and why the UN has been successful at protecting civilians. Two reasons for the UN's success are highlighted in the book as being statistically most significant. First the organization offers local ownership to peaceful solutions by considering conflicting parties as the primary agents of protection. Second the UN approach is much less power oriented than unilateral approaches by the great powers. Protection for the UN does not mean deterrence or destruction but rather support for local protectors of civilians. However strong great power influence on such operations tends to weaken UN's ability to save lives. This book will be of much interest to students of humanitarian intervention, peacekeeping, human rights and International Relations in general.
