Digital Media Influence Andy Ruddock, 2020-03-09 Populism misogyny rampage murders Digital media seem to lie at the heart of sinister intractable social challenges Curiously the very societies who fear such things are often dismissive of media research Addressing key issues affecting global media industries this book explains how to solve the present conundrum by appreciating the historical development of cultivation theory Digital Media Influence ties cultivation themes such as mean world syndrome mainstreaming the celebration of white male violence the ridiculing of ageing women the inhibition of activism the

mediatisation of religion and the erosion of trust in education with contemporary digital media case studies Considering the aftermath of the Parkland murders political memes Islamophobia the fate of female reality TV stars and the bad press directed at media education Ruddock shows how these phenomena are born of media practices that cultivation theory began to dissect in the 1950s Paying close attention to the life and work of George Gerbner Digital Media Influence locates today's questions in the historical forces and relationships that moved media industries closer to the heart of global politics in the mid 20th century It makes Gerbner's work relevant to all critical media researchers by providing a theoretical methodological and historical steer for understanding new media influences In explaining how one of the world's leading media theories developed in relation to intriguing historical circumstances many of them deeply personal this book helps researchers of all levels to find their voice in writing on media issues
