Toward a Psychology of Uncertainty Doris Brothers, 2011-04-12 Since trauma is a thoroughly relational phenomenon it is highly unpredictable and cannot be made to fit within the scientific framework Freud so admired In *Toward a Psychology of Uncertainty Trauma Centered Psychoanalysis* Doris Brothers urges a return to a trauma centered psychoanalysis Making use of relational systems theory she shows that experiences of uncertainty are continually transformed by the regulatory processes of everyday life such as feeling knowing forming categories making decisions using language creating narratives sensing time remembering forgetting and fantasizing Insofar as trauma destroys the certainties that organize psychological life it plunges our relational systems into chaos and sets the stage for the emergence of rigid life constricting relational patterns These trauma generated patterns which often involve denial of sameness and difference the creation of complexity reducing dualities and the transformation of certainty into certitude figure prominently in virtually all of the complaints for which patients seek analytic treatment Analysts she claims are no more strangers to trauma than are their patients Using in depth clinical illustrations Dr Brothers demonstrates how a mutual desire to heal and to be healed from trauma draws patients and analysts into their analytic relationships She recommends the reconceptualization of what has heretofore been considered transference and countertransference in terms of the transformation of experienced uncertainty In her view the increased ability of both analytic partners to live with uncertainty is the mark of a successful treatment Dr Brothers perspective sheds fresh light on a variety of topics of great general interest to analysts as well as many of their patients such as gender the acceptance of death faith cult like training programs and burnout Her discussions of these topics are enlivened by references to contemporary cinema and theatre *Comprehensive Handbook of Social Work and Social Welfare, Human Behavior in the Social Environment*, 2008-07-23 *Comprehensive Handbook of Social Work and Social Welfare Volume 2 The Profession of Social Work* features contributions from leading international researchers and practitioners and presents the most comprehensive in depth source of information on the field of social work and social welfare **Religious Experience and Self-Psychology** Jung Eun Jang, 2016-11-09 This book explores the 1907 Korean Revival Movement from a self

psychological perspective The examination of the psychological processes in the movement based on Heinz Kohut's self psychology can shed light on religious experiences as selfobject experiences by identifying the sense of defeatedness and helplessness that Korean people experienced under Japanese occupation as what Kohut calls self fragmentation of the Korean group self and explaining its therapeutic functions which facilitate potential for the narcissistic nourishment of the fragmented group self leading to renewed self esteem transformation and empowerment of the Korean people Korean people in the early 1900s experienced abuses and oppression by corrupt officials and exploitation by Japanese government Through religious experiences which emphasized the individual repentance the experience of God through the spirit emphasis on prayer and eschatological faith the Korean Revival Movement in 1907 enabled its followers to experience mirroring and idealizing selfobjects which function as a role of transforming the lower shape of narcissism into the higher one *The Spiritual Horizon of Psychotherapy* William S. Schmidt, Merle R. Jordan, 2013-09-13 This book explores the wise and conscious use of spiritual resources within counselling and psychotherapy Written by veteran clinicians from different spiritual perspectives and from various therapeutic schools of thought this book provides a broad view of how the spiritual is present within therapeutic practice The work of counselling and psychotherapy is increasingly seeking to ground its efforts within the richness of spiritual traditions One of the surprising developments of the contemporary psychotherapeutic scene is a growing reliance on both hard objective sciences such as for example neurology or Genetics whilst at the same time engaging very subjective soft sciences such as states of consciousness studies psychology of religion clinical or Pastoral Theology and the over arching tasks of meaning making Written by and for clinicians who are also teachers in the field this collection offers a variety of viewpoints in terms of the diverse spiritual traditions they draw from theoretical sources that guide and inform them or the spiritual applications they bring to their work This book was published as a special issue of the *Journal of Spirituality in Mental Health* **Transforming Wisdom** Felicity Kelcourse, K. Brynolf Lyon, 2015-10-09 Transforming Wisdom offers an extensive multidisciplinary introduction to pastoral psychotherapy from some of the most respected practitioners in the field With special attention to theological perspectives on the practice of psychotherapy this collection of essays will be useful to students seeking an orientation to the art and science of pastoral psychotherapy as well as to seasoned professionals looking to refresh and renew their practice As the subtitle Pastoral Psychotherapy in Theological Perspective suggests this book is intended to represent the field of pastoral psychotherapy as a mental health discipline that maintains intentional dialogue with its theological roots Even as pastoral psychotherapy has developed from the ancient notion of the cure of souls to the current search for a psychology of happiness therapists grounded in faith communities seek a practice that is respectful of all persons mindful of the deep wisdom that emanates from the true self or soul While many contributors write from a psychoanalytic or psychodynamic perspective grounded in Christian theological idioms diverse theoretical perspectives including Emotionally Focused Couples Therapy Narrative Therapy Buddhist Mindfulness and

Jungian understanding of individuation are represented Progress in Self Psychology, V. 15 Arnold I. Goldberg, 2013-06-17

Volume 15 of Progress in Self Psychology conveys the rich pluralism of contemporary self psychology with respect to a central theoretical and clinical issue the nature of the self and the manner in which it can best be studied This topic is initially addressed through a series of papers reassessing selfobject transferences and the selfobject function of interpretation It is then approached via the theory of psychoanalytic technique with papers that focus on boundaries and intimacy and on Surface Depth and the Isolated Mind And it culminates in two case studies that elicit animated discussion delineating different perspectives intersubjective motivational systems and self selfobject on the self in relation to the therapeutic process Two studies comparing Melanie Klein and Heinz Kohut a discussion of how current cultural attitudes affect parenting a relational view of the therapeutic partnership and an integration of Silvan Tomkin's affect theory with self psychology add breadth to this timely and provocative collection Volume 15 includes additional letters from the Kohut Archives and a moving account of Kohut's struggle with his own impending death **Psychology in Nietzsche's Criticism of Religion** Jan-Olav Henriksen, 2022-11-14 Friedrich Nietzsche claimed to be a psychologist This claim is substantiated in his criticism of religion In this book Jan Olav Henriksen provides new perspectives on Nietzsche's contribution to such criticism by applying elements from attachment theory and self psychology The result is that Nietzsche's insights into the problematic elements in religion point beyond what he was able to articulate based on the psychological resources available to him Henriksen sheds new light on the psychological dimensions in Nietzsche's individualism his understanding of God morality metaphysics and emotions and demonstrates how Nietzsche's criticism of religion is rooted in both psychological splitting and a profound loss of the orientational resources religion provided in his childhood **Wesleyan Theology and Social Science** M. Kathryn Armistead, Brad D. Strawn, Ronald W. Wright, 2009-12-14 Science and religion are living organic and creative traditions Both see humans as profoundly interconnected and in some way responsible for our environs This worldview is especially true for social science and Wesleyan religious tradition While the dance between science and religion will always be complex it can also be enjoyable and mutually satisfying However when couples dance only one at a time can lead and both have to acknowledge the importance of the other This book is written with the conviction that theology and science can have a beneficial relationship if only both recognize their mutual value to the lives of persons The Methodist tradition links the welfare of the body with care for the soul Historically ministry involved tending to physical and psychological needs of the Methodist band members but also to non-churched poor and imprisoned Thus Methodists built places of worship schools orphanages and hospitals For John Wesley the founder of Methodism practical divinity always involved attention to whole persons including their living conditions and basic physical needs He sought to improve life for all Therefore throughout his life Wesley was interested in theology but also scientific discovery as paths toward a better future He believed that both were of value to help people move toward perfection He even attended lectures and offered medical

treatment in the first Methodist meeting hall in Bristol England As a scientific practitioner Wesley wrote the best selling book *Primitive Physic or An Easy and Natural Method of Curing Most Diseases* using the cutting edge science of his day Packed next to the Bible this book traveled with countless pioneers as they settled the territories that became the United States Methodism has a long tradition of using science and religion to carry out the biblical mandate to go into the world and make disciples for Jesus Christ This book seeks to continue that legacy by bringing current trends in psychology into conversation with Wesleyan theology Composed of essays that represent different psychologies and theological traditions which trace their roots to Wesley this book aims at creating a space where science and theology can partner and dance In the book readers will find positive psychology self psychology object relations family systems moral psychology and neuroscience in conversation with various theologies Under this canopy the contributors see themselves as people called Methodists seeking to follow the example of Wesley to use all available tools to enable persons to live fully and well

Female Identity Formation and Response to Intimate Violence Anne Kiome Gatobu, 2013-02-19 This book is a vital resource for intervention programs educators social workers counselors psychotherapists pastoral counselors and survivors of intimate violence and their families It gives the reader access to the inner emotions and psychological mechanisms of survivors of intimate violence in collective cultures that work to hold them captive in violent relationships The author integrates the psychological developmental theories of Heinz Kohut and Erik Erikson with social cultural and religious aspects to demonstrate the collusive power of what she calls the orienting system psychosocial and religious cultural force in the formation of a female sense of self to investigate the peculiar range of responses of females to intimate violence Using theoretical and empirical research the author claims that the demeanor and functionality of the female survivor of intimate violence is an adaptation that enables her to retain her socially prescribed roles which she appropriates as a social identity and sense of self A surprising aspect of this work is the transformative power of religion also resourced in the orienting system in transforming the psychic hold of survivors to cathected self objects to self images that approximate a self in healthy relationship with God Consequently the energies and investment released can be redirected to cohere in self identities that can optimize drive thrive and relationality

Unconscious Wisdom Dan Merkur, 2001-04-05 In a detailed engagement with the psychoanalytic theories of dreams conscience empathy and creativity Dan Merkur argues that the superego is an unconscious reasoning process dedicated to the representation of the loved object The superego's access to the repressed and devotion of time to single topics make it both more knowledgeable and more intelligent than the conscious ego This is the final installment in Merkur's three volume exploration of the psychoanalysis of religious experiences volumes one and two are *The Ecstatic Imagination* *Psychedelic Experiences* and *the Psychoanalysis of Self Actualization and Mystical Moments* and *Unitive Thinking* also published by SUNY Press
