Seligman,2005-05-10 In the decades following World War II cities across the United States saw an influx of African American families into otherwise homogeneously white areas This racial transformation of urban neighborhoods led many whites to migrate to the suburbs producing the phenomenon commonly known as white flight In **Block by Block** Amanda I Seligman draws on the surprisingly understudied West Side communities of Chicago to shed new light on this story of postwar urban America Seligman s study reveals that the responses of white West Siders to racial changes occurring in their neighborhoods were both multifaceted and extensive She shows that despite rehabilitation efforts deterioration in these areas began long before the color of their inhabitants changed from white to black And ultimately the riots that erupted on Chicago s West Side and across the country in the mid 1960s stemmed not only from the tribulations specific to blacks in urban centers but also from the legacy of accumulated neglect after decades of white occupancy Seligman s careful and evenhanded account will be essential to understanding that the flight of whites to the suburbs was the eventual result of a series of responses to transformations in Chicago s physical and social landscape occurring one block at a time A View from the River Jay Pridmore,2000 The full page layout of photographs by architectural photographer Hedrich Blessing which show the magnificent skyscrapers of Chicago in a variety of complementary light conditions reproduce the popular Chicago Architecture Foundation tours An informative text accompanies the photos on the facing Source Book of American Architecture George Everard Kidder Smith,1996 Scorched Earth is the first book to chronicle the effects of chemical warfare
