Season In The Sun A Berkley:

Singles and Smiles Gaylon H. White, 2018-03-20 This book brings to light the story of a Negro League and Pacific Coast League star his struggles to make it in the majors and his crucial role in integrating baseball's premier minor league Artie Wilson once was the best shortstop in baseball In 1948 Artie led all of baseball with a .402 batting average for the Birmingham Black Barons the last hitter in the top level of pro ball to hit 400 But during much of his career Organized Baseball passed Artie by because he was black In *Singles and Smiles* How Artie Wilson Broke Baseball's Color Barrier Gaylon H White provides a fascinating account of Wilson's life and career An All Star in the Negro Leagues in 1949 Artie became only the second black player in the Pacific Coast League PCL and the first to play for the Oakland Oaks Wilson soon became one of the league's most popular players with white and black fans alike through his consistent play and optimistic upbeat attitude In 1951 Artie finally got a chance to play in the majors with the New York Giants but after batting a mere twenty four times he urged Giants manager Leo Durocher to send him back to the minors and bring up a former Black Barons teammate to take his place Willie Mays While Jackie Robinson deserves all the credit he has received for breaking baseball's color barrier at the major league level this book pays tribute to those such as Artie Wilson who changed the game in the minors pioneers in their own right Featuring in depth interviews with Artie alongside interviews with almost thirty of Artie's teammates and opponents including Willie Mays and Carl Erskine *Singles and Smiles* imparts a treasure trove of stories that will entertain and inspire baseball fans of all generations

A Novel and Efficient Synthesis of Cadaverine S. A. Scoggin, 2009-11-18 Graduation week should be an exciting time for the Chemistry Department of Allston University as they prepare to move from their shabby haunted laboratories into a brand new building Happily oblivious they don't know that the President of the University a candidate for an empty Senate seat and hungry for good publicity is scheming to trade away their building to poach a Professor of Physics on the Nobel short list The week might turn out to be more exciting than anyone had reckoned what with the two different infernal devices stashed in the basement and the assassination scheduled for the dedication

Implementation in the Context of Randomized Field Trials Gloria Isabel Miller, 2011 Abstract curricular program
 implementation in the context of randomized field trials Gloria Isabel Miller This study examined three cases of commercially
 available curricular program implementations to determine if a unified approach to measuring the level of implementation
 was possible proof of concept Further the study investigated whether the level of curriculum and implementation plan
 specificity made a difference to the strength of implementation achieved in classrooms and described the implementation
 evolution in different contexts The study sample consists of a total of 163 teachers in eight school districts across the United

States In each case teachers were randomly assigned to using the curricular innovation or their currently used materials and processes The three cases HS Math NewScience and MathIntervention were purposely chosen to represent three different points of curricular and implementation specificity and two different subject areas math and science Each case features a commercially available program that also had opportunities for teachers to use electronic technology to enhance their learning or to engage their students The cases represent differing student grade levels The cases are different enough to provide a range that exercises the measurement techniques introduced in this study so results can begin to generalize across curricular programs and grades However the cases are similar enough in research design instrumentation and data collection methods to make them comparable A key contribution of this investigation is the creation of a framework to measure the level of implementation the extent to which the teacher and students display the actions behaviors and interactions expected by using the innovation The unified conceptual framework arrived at by using an Activity Theory perspective together with the analytical methods employed provide a way to view the rich complex interaction of implementation as a system with the larger system of the school organization Data from the analysis revealed that variations in the level of implementation were no different regardless of the level of specificity A strong finding of this work is that implementation evolves slowly even when the curricular program is scripted and coaching support is provided to teachers The paper concludes with implications for policy and future research
