Dylan Thomas Walford Davies, 2014-04-15 This critical study covers the whole range of Dylan Thomas's writing, both poetry and prose, in an accessible appraisal of the work and achievement of a major and dynamic poet. It interrelates the man and his national cultural background by defining in detail the Welshness of his poetic temperament and critical attitudes as both man and poet. At the same time it illustrates Thomas's wide knowledge of and impact on the long and varied tradition of poetry in English. In that connection it delineates and delimits Thomas's relationship to surrealism, compares and contrasts his work with that of other poets of the 1930s and 1940s and shows how its power survives his early death in 1953 in the decade of the Movement poets and beyond. A major aspect of this book is the close textual analysis of the works quoted; it explores anew the recognition due to the man who wrote the work and helps us to separate the intrinsic achievement of the work from the foisted perceptions of the legend.

intertextual ties to 146 poems written by fifty one different poets with a special focus on Edgar Allan Poe John Milton's Paradise Lost and the work of WWI's War Poets This analysis of transformational mechanisms allows poetry to find an afterlife in the form of metal songs and sheds light on both the adaptation and appropriation process and on the semantic shifts occasioned by the recontextualisation of the poems into the metal music culture Some musicians reuse and sometimes amplify old verses related to politics and religion in our present times others engage in criticism or simple contradiction In some cases the bands turn the abstract feelings evoked by the poems into concrete personal experiences The most adventurous recraft the original verses by changing the point of view of either the poetic voice or the addressed actors altering the vocaliser of the narrative or the gender of the protagonists These mechanisms help metal musicians make the poems their own and adjust them to their artistic needs so that the resulting product is consistent with the expectations of the metal music culture

Radio Modernisms Aasiya Lodhi, Amanda Wrigley, 2020-06-09 This collection interrogates and stimulates deep cross disciplinary engagement with the various understandings and interplays of radio modernisms from the early decades of the twentieth century through to the 1950s Academics from a range of different disciplines explore their common interests in the richness and heterogeneity of BBC Radio's imaginative programming in terms of sound as cultural events from specific moments in time as team creations as something experienced live in the domestic context and as cultural works that in many cases attracted a certain canonical pedigree Radio modernisms are as these chapters demonstrate a combination of the particular the contingent and the contextual More than a decade after the publication of the first scholarly works to yoke together modernism and radio this collection emphasises the plurality of modernisms as a defining aspect of contemporary BBC historiography The authors bring multiple lenses to bear including race gender and transnationalism in order to re locate twentieth century radio programming in broad expansive contexts They also underline the dynamic entanglements of radio and radiogenic feature programmes in particular with other kinds of media and cultural forms and formats reframing radio as a site of and vehicle for remediation and intermediality In examining the myriad ways in which radio gave shape to new modernities and both evolved and constituted new forms of modernism this collection offers fresh perspectives on the interconnected significance of radio modernisms within the socio cultural literary and political landscapes of twentieth century Britain This book was originally published as a special issue of Media History

and Warhol that he smuggled into Los Angeles in his luggage There is the ghost of Dylan Thomas a fellow Welshman who haunts not just Paris 1919 but much of Cale s life and art There are the ghosts of history of a failed peace and the artists who sought the truth in dreams And there are the ghosts of Christmas surprising visitors who bring a nostalgic warmth and a touch of wintry dread With erudition and wit Doyle offers new ways to listen to an old album whose mysteries will never fully be resolved Sonic Stagings of U.S. Postwar Audiopoetry Ulla Stackmann,2025-08-04

As the first study of its kind this book explores the publication of poetry on sound carriers in the US postwar era from an aesthetic as well as an historical point of view Combining approaches from media and literary studies it explains why labels and individuals like Amiri Baraka Bernadette Mayer or John Giorno straddled the lines between music poetry and visual arts using audio recording and playing devices It sheds light on the sonic imaginaries that commercial and avant gardist recording projects sought to mobilize and sometimes also unwittingly reproduced in this context **Acting with the Voice** ,2004-07 Limelight Blumenfeld
