The Great Depression Ahead Harry S. Dent, 2009-01-06 The first and last economic depression that you will experience in your lifetime is just ahead The year 2009 will be the beginning of the next long term winter season and the initial end of prosperity in almost every market ushering in a downturn like most of us have not experienced before Are you aware that we have seen long term peaks in our stock market and economy very close to every 40 years due to generational spending trends as in 1929 1968 and next around 2009 Are you aware that oil and commodity prices have peaked nearly every 30 years as in 1920 1951 1980 and next likely around late 2009 to mid 2010 The three massive bubbles that have been booming for the last few decades stocks real estate and commodities have all reached their peak and are deflating simultaneously Bestselling author and renowned economic forecaster Harry S Dent Jr has observed these trends for decades As he first demonstrated in his bestselling The Great Boom Ahead he has developed analytical techniques that allow him to predict the impact they will have The Great Depression Ahead explains The Perfect Storm as peak oil prices collide with peaking generational spending trends by 2010 leading to a more severe downtrend for the global economy and individual investors alike He predicts the following The economy appears to recover from the subprime crisis and minor recession by mid 2009 the calm before the real storm Stock prices start to crash again between mid and late 2009 into late 2010 and likely finally bottom around mid 2012 between Dow 3 800 and 7 200 The economy enters a deeper depression between mid 2010 and early 2011 likely extending off and on into late 2012 or mid 2013 Asian markets may bottom by late 2010 along with health care and be the first great buy opportunities in stocks Gold and precious metals will appear to be a hedge at first but will ultimately collapse as well after mid to late 2010 A first major stock rally likely between mid 2012 and mid 2017 will be followed by a final setback around late 2019 early 2020 The next broad based global bull market will be from 2020 2023 into 2035 2036 Conventional investment wisdom will no longer apply and investors on every level from billion dollar firms to the individual trader must drastically reevaluate their policies in order to survive But despite the dire news and dark predictions there are real opportunities to come from the greatest fire sale on financial assets since the early 1930s Dent outlines the critical issues that will face our government and other major institutions offering long and short term tactics for weathering the storm He offers recommendations that will allow families businesses investors and individuals to

Christian in the current century One issue is the church's management of clergy sexual abuses of children, teens, and adults. A second is the issue of sexual gender orientation and church membership. Contemporary Christian denominations often intermingle the divisive issue of clergy and religious leader sexual abusiveness with the equally divisive issue of sexual gender orientation. In this book, Professors Krall and Schirch disentangle and discuss these two issues. They discuss their personal and their professional opinions about ways in which religious and spiritual teaching communities can avoid the institutional perils of abusive clericalism and divisive denominational management practices. Throughout the book, they apply Anabaptist/Mennonite principles of peace making in situations of sexual violation. Case studies are provided. A feminist hermeneutic is applied. Each letter essay is auto-ethnographic in style; the professional and the personal are deliberately blurred inside a framework of narrative and story. Each essay is deeply rooted in its author's academic interests and in her personal life history. This book can be a text in graduate and undergraduate classrooms. It can also be used in denominational self-study programs.

On The Wire Linda Williams, 2014-08-08. Many television critics, legions of fans, even the president of the United States have cited *The Wire* as the best television series ever. In this sophisticated examination of the HBO serial drama that aired from 2002 until 2008, Linda Williams, a leading film scholar and authority on the interplay between film melodrama and issues of race, suggests what exactly it is that makes *The Wire* so good. She argues that while the series is a powerful exploration of urban dysfunction and institutional failure, its narrative power derives from its genre. *The Wire* is popular melodrama, not Greek tragedy, as critics and the series creator David Simon have claimed. Entertaining, addictive, funny, and despairing all at once, it is a serial melodrama grounded in observation of Baltimore's people and institutions of cops and criminals, schools, and blue-collar labor, local government, and local journalism. *The Wire* transforms close observation into an unparalleled melodrama by juxtaposing the good and evil of individuals with the good and evil of institutions.
