Six months after a painful breakup from her pushy ex-Gordon PhD hopeful Beth is finally getting her life back on track. She's hard at work trying to prove her scientific theories are correct, no matter how unusual they may be. And she's even beginning to see her loyal lab partner Hibs as more than just a lothario in a lab coat. Hibs always held a candle for Beth but never thought she felt anything for him until they decided to get a few drinks to unwind and ended up examining each other in a very unscientific manner. It seems they might just complement each other outside of the lab as well. But when Gordon storms back into town, will Beth be able to see beyond his shallow charms and realize that her true love is the man who stands by her side every day.
