Numerous Avalanches At The Point Of Intersection:

Numerous Avalanches at the Point of Intersection Geraldine Kudaka, 1979-01-01 [A Study Guide for Hisaye Yamamoto's "Eskimo Connection"](#) Gale, Cengage Learning, 2016-07-14 A Study Guide for Hisaye Yamamoto's *Eskimo Connection* excerpted from Gale's acclaimed *Short Stories for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Short Stories for Students* for all of your research needs. **A History of California Literature** Blake Allmendinger, 2015-05-19 Blake Allmendinger's *A History of California Literature* surveys the paradoxical image of the Golden State as a site of dreams and disenchantment, formidable beginnings and ruinous ends. This history encompasses the prismatic nature of California by exploring a variety of historical periods, literary genres, and cultural movements affecting the state's development from the colonial era to the twenty-first century. Written by a host of leading historians and literary critics, this book offers readers insight into the tensions and contradictions that have shaped the literary landscape of California and also American literature generally. **The Forbidden Stitch** Shirley Lim, Mayumi Tsutakawa, Margarita Donnelly, 1989 This first U.S. anthology of work by Asian American women contains poetry, prose, and graphic art and a section of reviews of previously published literature. These women, in contrast to their foremothers, repeatedly identify themselves through their art. Very often they do this by showing who they are not: not male, not white. The works reveal their pride in their cultural heritage. ISBN 0 934971 10 2 **Contemporary American Poetry** Lloyd M. Davis, 1985 Lists over 500 titles of books published by American poets between 1973 and 1983. **An Ear to the Ground** Marie Harris, Kathleen Aguiro, 1989 A multicultural anthology of contemporary American poetry featuring works by over one hundred famous and lesser-known writers, including Gwendolyn Brooks, Sandra Cisneros, Simon Ortiz, and Ray A. Young Bear. [A Literary History of the American West](#) Western Literature Association (U.S.), 1987 Literary histories, of course, do not have a reason for being unless there exists the literature itself. This volume, perhaps more than others of its kind, is an expression of appreciation for the talented and dedicated literary artists who ignored the odds, avoided temptations to write for popularity or prestige, and chose to write honestly about the American West, believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance. **Asian American Literature** Elaine Kim, 1982 An introduction to the literary works of Chinese Americans, Japanese Americans, Filipino Americans, and Korean Americans; this book focuses on the self-images and social contexts of the nineteenth-century immigrants, their descendants, and the Americanized writers of today. Although the book examines the novels, autobiographies, poems, and plays themselves, the social history of Asians in America is a significant backdrop, as Maxine Hong Kingston herself argues it should be. These racially distinctive Americans have confronted in their lives and writings American stereotypes of the Orient, racial discrimination, and the cultural gulf between East and West. After a chapter on Fu Manchu, Charlie Chan, and other Anglo-American

caricatures of Asians the author turns to a discussion of the first immigrant writers many of whom were educated aristocrats playing the role of cultural ambassadors and then to the less privileged more socially critical generations of writers who followed From works like *Flower Drum Song* *Eat a Bowl of Tea* *The Woman Warrior* *China Men* and a host of lesser known writings the author shows how portrayals of Chinatown the Japanese American family and the roles of all the Asian American women and men have changed Drawing on her personal interviews with Asian American writers Kim also conveys their attitudes towards their own group other Asian Americans other racial minorities and white Americans a complex mix of bitterness acceptance and militance Author note Elaine H Kim is Associate Professor of Ethnic Studies at the University of California Berkeley She directs the Korean Community Center of Oakland and Asian Women United California

The Cortex and the Critical Point John M. Beggs, 2022-08-30 How the cerebral cortex operates near a critical phase transition point for optimum performance Individual neurons have limited computational powers but when they work together it is almost like magic Firing synchronously and then breaking off to improvise by themselves they can be paradoxically both independent and interdependent This happens near the critical point when neurons are poised between a phase where activity is damped and a phase where it is amplified where information processing is optimized and complex emergent activity patterns arise The claim that neurons in the cortex work best when they operate near the critical point is known as the criticality hypothesis In this book John Beggs one of the pioneers of this hypothesis offers an introduction to the critical point and its relevance to the brain Drawing on recent experimental evidence Beggs first explains the main ideas underlying the criticality hypotheses and emergent phenomena He then discusses the critical point and its two main consequences first scale free properties that confer optimum information processing and second universality or the idea that complex emergent phenomena like that seen near the critical point can be explained by relatively simple models that are applicable across species and scale Finally Beggs considers future directions for the field including research on homeostatic regulation quasicriticality and the expansion of the cortex and intelligence An appendix provides technical material many chapters include exercises that use freely available code and data sets *Conditions*, 1980 [A Directory of American Poets and Fiction Writers, 1994-1996](#) Poets & Writers, Inc, 1994-12 Names and addresses of contemporary poets and fiction writers whose work has been published in the United States **Monographic Series** Library of Congress, 1980

Geographic Information Science and Mountain Geomorphology

Michael Bishop, John F. Schroder, 2004-06-30 From the reviews Bishop and Schroder both Univ of Nebraska at Omaha have brought together an impressive group of practitioners in the relatively new application of geographic information science to mountain geomorphology In doing so they have produced valuable first overall coverage of a high tech approach to mountain three dimensional research More than 40 contributing authors discuss a wide range of related aspects The book is well bound and well produced each chapter provides an extensive source of references The numerous line drawings are clearly reproduced although the mediocre quality of photographic reproduction limits the value of air photographs and satellite images As is characteristic of many edited collections there is some variation in chapter quality Some of the writing is so dense that it requires minute concentration one chapter for instance has 14 pages of references from a total of 43 pages Nevertheless this is a vital compendium for a rapidly expanding field of research Summing Up Recommended Upper division undergraduates through professionals J D Ives Choice March 2005
